STRATEGIC REPORT

Strategic Report for the year ended 31 December 2022

The directors present their Strategic Report for the year ended 31 December 2022 for Ford Motor Company Limited ("the Company").

The Company is a private company limited by shares, incorporated and domiciled in the United Kingdom.

Principal activities

The principal activities in which the Company is currently engaged are the manufacture of low emission diesel engines; and the distribution and sale of motor vehicles and automotive components and associated customer after sales support.

Review of the business

The UK remains Ford's third largest global market (after the US and China), and the Company maintained its leadership of UK market total vehicle sales in 2022, including its 57th consecutive year of commercial vehicle (CV) sales leadership (per Society of Motor Manufacturers and Traders (SMMT)). Ford placed second in sales of passenger vehicles, up from fourth in 2021. Highlights from the year included:

- Ford #1 in CV ((light commercial vehicle (LCV) & medium commercial vehicle (MCV) combined)) with 38.1% share up 3.7% pts year over year (YoY)
- Transit Custom is the #1 best-selling vehicle in the UK
- All-time record segment share for Ranger – Ranger sales represent 56.9% of the Pickup segment
- Ford #1 in Car Retail with 8.9% share
- Puma is Ford's best-selling car this year – 35,088 units sold – making it the Best-selling Mini Utility vehicle in the UK and 4th Best-selling car overall

Ford's commitment to its European and UK customers is to invest and grow its leading commercial vehicle business and to provide passenger vehicle customers with a more defined portfolio of sports utility vehicles and crossovers, exciting performance derivatives and iconic imported models with after-sales support supplied by a strong dealer network.

The Company's partnership with Ford Credit is another area that continues to help build customer loyalty. The Options personal contract plan has been chosen by millions of our private customers in the UK since its introduction and in 2022 Ford Credit reached the 2 million customer milestone for its industry-leading flexible Options product in the UK. Most of our customers currently select our two to three-year contracts at prudent interest rates that help maintain residual values and ensure that equity is retained in their vehicles that can be carried through to their next purchase. Ford has a proud history in the UK and the brand continues to show potential to grow and prosper.

Ford is committed to the UK and continues to be a major employer with significant operations in the country. The Ford Britain Dunton Campus in Essex is home to Ford Pro, Ford's European market-leading commercial vehicle business which is set to play an even more significant role in the future; the headquarters of both the Ford of Britain national sales company and Ford Credit Europe, Ford's banking arm; and a centre for powertrain engineering. Ford's Mobility innovation Office in London is developing future mobility solutions for Europe.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

STRATEGIC REPORT *(continued)*

Review of the business *(continued)*

Ford continues to produce diesel engines at the Dagenham Engine Plant in east London and transmissions are manufactured at the Halewood transmissions plant on Merseyside which returned to sole Ford ownership at the start of March 2021 after 20 years of being part of the Getrag Ford Transmissions joint venture. In 2021, Ford announced a £230m investment to transform Halewood to build electric power units for future Ford all-electric passenger and commercial vehicles in Europe, and this investment increased in 2022 to a total of £380m securing jobs and increasing annual production to 420,000 units per year of E-Drive power units for passenger cars and commercial vehicles across Europe. Ford also operates a parts distribution centre in Daventry, and its Transport Operations ship vehicles and components across the UK.

Ford's £24 million E:PRIME centre (part of the £380m investment), at Ford's Dunton product development HQ, is building prototypes of the electric power unit and training Halewood employees in its machining and assembly, assisted by the Advanced Propulsion Centre. The power unit, comprising edrive motor and gearbox, replaces the engine and transmission of a conventional engine vehicle by propelling an electric vehicle (EV) using battery energy.

UK Furlough Scheme

As part of its response to the COVID-19 pandemic the UK Government introduced the Coronavirus Job Retention Scheme. This allows all UK employers with employees on a PAYE scheme to designate some or all employees as 'furloughed workers'. Employers can get access to Government support to continue paying part of these furloughed employees' salaries and potentially protect the employees from redundancy. The Company made use of this scheme in 2021 and details of the grants received are shown in Note 7 Other Operating Income.

Principal risks and uncertainties

Excluding financial risk management (see Directors' Report) the management of the business and the execution of the Company's strategy are subject to a number of other risks. The Company's business is substantially dependent upon the sale of its vehicles in the UK and continental Europe. Sales of vehicles could decline if the Company is unable to respond to economic pressures, or a weakening of the industry. In addition, suppliers in economic distress could constrain the availability of components and materials and therefore adversely affect the production and sale of vehicles. Management has responded to these risks by ensuring that regular reviews are made of the Company's position in the market, and that processes exist to develop good communications with suppliers.

STRATEGIC REPORT *(continued)*

Section 172 Statement: Statement by the Directors in performance of their statutory duties in accordance with section 172 (1) of the Companies Act ("section 172(1) statement")

This section 172(1) statement, which is required under section 414A of the Companies Act 2006, describes how the Board of Directors (hereafter referred to as the Board) have had regard to the matters set out in section 172(1)(a) to (f).

The section 172(1) statement requires the Company to demonstrate how the Directors act in ways they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its stakeholders as a whole. This means that as well as promoting the success of the Company for the benefit of its member, the Directors must have regard, amongst other matters, to:

- a) the likely consequences of any decisions in the long-term,
- b) the interests of the Company's employees,
- c) the need to foster the Company's business relationships with suppliers, customers and other stakeholders,
- d) the impact of the Company's operations on the community and the environment,
- e) the desirability of the Company maintaining a reputation for high standards of business conduct, and
- f) the need to act fairly as between members of the Company and how the Company complies with the requirements of section 172 of the Companies Act 2006.

In making this assessment, the Board considers the matters on the following page to be of particular relevance:

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

Section 172 Requirement	Examples of how the Board's discussions and decision making have been taken into account (See review of the business on pages 1-2 and future developments on pages 13-14 for example key decisions made during the year)	Referenced in the Directors/Strategic Report(where applicable)
(a) the likely consequences of any decision in the long term	During the reporting year, the Board ensured that employees received regular communications and, where applicable, were consulted with either directly or via representatives on the relevant proposals. The Board carefully considered the consequences of their decisions over the long term and concluded that the actions would be of benefit to the Company and its members. For example, the payment of dividend to its parent undertaking and the investment in one of its subsidiaries.	
(b) the interests of the Company's employees	- Health and Safety of employees remains a priority consideration within the Company. The Chief Medical Officer (CMO) based at Dunton continues to manage the Company's site occupational health services in partnership with an external medical specialist provider. During the reporting year, the Company's site occupational health service provider was changed following a contract re-tendering exercise and as part of this the Board received a report on the service review that was carried. Together, the Company's CMO and the new occupational health service provider are delivering a professional service designed to monitor the health of employees to ensure that they are operating in a healthy working environment with mental health and wellbeing continuing to be provided at all sites. - During the year, there were regular meetings between management and employee representatives at all Ford locations to review operational performance and matters of local importance. - The Company has continued to communicate directly with employees, as appropriate, via supervisory briefings, Employee Information Bulletins and @FordOnline, the Ford intranet web-based system. - The Company values the diversity of its employees and encourages an inclusive culture so that everyone is free to contribute and develop in a psychologically safe working environment that is free from harassment or bullying. The Company is continuing to take actions to improve gender and ethnicity representation.	Pages 5-9: - Health & Safety - Employee Communications - Diversity, Equity and Inclusion
(c) the need to foster the Company's business relationships with suppliers, customers and others	- The Company has a Ford Dealer Council, where senior representatives of the Company, including the Company's Managing Director, meet regularly with representatives of the dealer body to discuss a range of matters affecting the dealer network. These include market conditions, proposed sales and marketing initiatives, customer satisfaction, aftersales programmes, and dealer franchising matters. - The Company has a Supplier Council, who meet regularly with our executives in Purchasing, Product Development and Manufacturing and other functions as required. These meetings are primarily to discuss all manner of subjects impacting our working relationships together, and the subsequent process and policy changes that these subject may bring about. Furthermore, the Board via delegation to the Chief Finance Officer also ensures that Company's payment terms and practices in relation to its suppliers meet or exceed the statutory requirements. The Board also reviewed and approved for publication the a statement of the steps the Ford group has taken to ensure that slavery and human trafficking are not taking place in the business or in the company's supply chains. - National level meetings, involving senior management and union officials were also held regularly during the year to discuss overall business performance and related matters.	Page 5: Employee Communications
(d) the impact of the Company's operations on the community and the environment	The Company has well established policies for safeguarding and improving the social and environmental impact of its operations. For example, all the Company's manufacturing locations are ISO14001 certified and, as part of a joint initiative agreed with its European Works Council, it operates to agreed social rights and social responsibility principles.	Pages 8-10: - Our community - Corporate social responsibility

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

	- The Company encourages its suppliers both to work to achieve ISO14001 certification and to operate their own plants to a standard consistent with our principles. - During the reporting year, the Board has brought to the fore the development of an Environment, Social and Governance strategy for the Company and its operations.	
(e) the desirability of the Company maintaining a reputation of high standards of business conduct; and	The Board is committed to complying with all applicable regulations and requires every employee to certify to the Corporate Code of Conduct. A strong compliance culture is encouraged.	
(f) the need to act fairly as between the members of the Company	The Company is ultimately owned by Ford Motor Company and regularly engages with its parent company to ensure that the Company plans are fully aligned with the group.	

Key performance indicators

The Company measures its financial performance by reference to profitability and market share based on the strategies set out above. Some of the key performance indicators used by the business are set out below:

		2022	2021
Revenue	Revenue is up 29% reflecting primarily improved vehicle pricing and vehicle mix.	£12,029m	£9,303m
Market share	Increased market share in both passenger vehicles (PV) and commercial vehicles (CV).	12.0% market share (PV and CV)	11.7% market share (PV and CV)
PBIT	Improved profit before interest and tax reflects primarily commercial vehicle market strength and improved pricing and vehicle mix.	£297m	£269m
Net assets	Balance Sheet position primarily explained by negative remeasurement of pension position.	£3,045m	£3,231m

Results

The Company's result for the year is set out in the income statement on page 24.

The latest position of the pension schemes under Financial Reporting Standard 101 ("FRS 101") (disclosed in note 21 to the financial statements) shows a net surplus at the year-end before deferred tax of £1,845m (2021: £2,304m).

Employee communications

We recognise that good communication supports employees in their roles and improves organisational performance. Effective communication is important for developing trust, increasing engagement and ultimately enriching our culture.

During the year, there were regular meetings between management and employee representatives at all Ford locations to review operational performance and matters of local importance. National level meetings, involving senior management and union officials were also held regularly during the year to discuss overall business performance and related matters.

The Company has continued to communicate directly with employees, as appropriate, via supervisory briefings, Employee Information bulletins and @FordOnline, the Ford intranet web-based system.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

STRATEGIC REPORT *(continued)*

Diversity, Equity and Inclusion

With a long and deep heritage in the UK, Ford has shown a sustained commitment to Diversity, Equity and Inclusion (DEI) that spans numerous decades. However, in as much as we are proud of our rich history and the things we have achieved over that time, we also recognise that we are on a journey and still have more to do to create a fully diverse, equitable and inclusive organisation.

Our DEI aspiration therefore is to cultivate a culture of belonging, where all employees feel valued for the contribution they make to our business and can bring their individual uniqueness and authenticity to the workplace. Infusing a sense of belonging in everything that we do is fundamental to creating a culture where we care for each other and everyone feels they are part of the Ford family.

We strive to achieve this through a range of policies, practices and activities detailed below:

The Company established a formal equal opportunities policy more than 30 years ago and since that date we have continued to develop and evolve workplace policies that recognise and support our employees and their individual life experiences.

The Company's Diversity Councils and the application of fair employment practices, ensures that all employees are treated equitably regardless of sex, marital status, civil partnership status, parental status, race, ethnic origin, colour, nationality, national origin, disability, sexual orientation, religion/belief, gender identity, age or those with caring responsibilities.

The Company also has a well-established Dignity at Work Policy to create an inclusive working environment through the prevention and elimination of unfair discrimination, harassment, bullying and victimisation. In addition, we are committed to doing even more to make our workplaces more respectful and inclusive by extending our DEI learning and awareness training and holding Listening Workshops, that will enable our employees to share directly with senior leaders their lived experiences of DEI inside and outside the Company.

As part of our desire to continuously improve and hold ourselves to account, in 2021 we engaged in an independent external DEI audit, that took a deep dive into our policies and processes, leadership engagement, culture and employee experiences. The audit provided a strong framework to understand both the positive work we are already doing, as well as the opportunities to go further. In response to the audit recommendations, throughout 2022 our Leadership Team led working groups to progress many of the opportunities identified in the audit including increasing DEI data reporting and transparency, offering new mentoring and Inclusive Leadership programmes and strengthening our DEI governance. In addition, in 2022 it was a requirement that every People Leader in the Company had at least one DEI objective included with their performance objectives.

Our DEI strategy underpinned by our Ford+ behaviours seeks to create an inclusive which is further strengthened by the variety of employee resource groups that form a valuable network across the organisation. Such networks include Ford Asian Association; Ford Chinese Association; Ford African Ancestry Network; Ford Parents' Network; Professional Women's Network; Ford Carers' Network; Disability Support Group and Ford Pride (Sexual Orientation and Gender Identity Network) as well as numerous clubs and societies. Each network, group and society play a pivotal role in making the Company a great and vibrant place to work.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

STRATEGIC REPORT (continued).

Diversity, Equity and Inclusion (continued)

Ford in the UK also has a comprehensive and targeted approach to increase the heavily underrepresented female pipeline of young women entering Science, Technology, Engineering and Mathematics (STEM) careers through various outreach initiatives and school partnerships.

The Company continues to be a long running Stonewall Diversity Champion, a member of the Employers' Network for Equality and Inclusion and the Business in the Community (BITC).

Since 2018, we have been recognised as a Disability Confident Leader under the Government's Disability Confident Scheme and are pleased to play an active role within the Disability Confident Business Leaders Group. We are also committed to using this report to call out the actions we are taking to attract, recruit and retain people with disabilities as well as our focus on mental health and wellbeing in line with the Government's Voluntary Reporting Framework.

Recognising unemployment rates are significantly higher for people with disabilities compared to people without disabilities we have developed links with charities and external bodies to provide work experience opportunities within our organisation, including through Leonard Cheshire's Change 100 Programme. We have a strong commitment to ensuring our recruitment practices are equitable, provide DEI training for recruiters and take seriously the need for reasonable adjustments, with a strong focus on supporting the individual. We also ensure that our Disability Confident logo features in our recruitment advertising.

In our workplaces, our People Leaders are encouraged to use their regular employee check-ins, alongside other opportunities to ensure our employees receive the help and support they need. People Leaders can also draw upon the extensive resources of our Occupational Health Departments that are located across our workplaces.

In addition, we work collaboratively with our Disability Employee Resource Group in the development of our policies and processes to ensure they are fully inclusive: this includes a long-standing formal written commitment to supporting people with disabilities.

Recognising the social stigma that has long surrounded mental health in the UK, we have now trained over 200 mental health first aiders and offer training and resources to support both employees and People Leaders address mental health issues and proactively support wellbeing. We also run mental health awareness events throughout the year to increase understanding and encourage more open dialogue about this important area.

As we move forward, we seek to increase our disability monitoring data to enable more effective reporting capability and transparency.

Our culture of diversity, equity and inclusion has always been a part of who we are at our best, and we will carry that forward into the future.

STRATEGIC REPORT *(continued)*

Our Community

We actively support our local communities through our employee volunteering efforts, through the work of the Ford Britain Trust and the Ford Motor Company Fund.

Volunteering

We offer paid time off for employees to enable them to give back to their local communities. The Company aims to contribute to society and integrate Ford within the local community, build a good reputation with customers and potential employees and encourage personal development through team building skills and job enrichment.

Each year, thousands of employees volunteer in community service projects around the world, bringing unique skills, passion and teamwork to grassroots organizations and non-profits. Since 2005, Ford employees have logged more than 1.7 million volunteer hours – feeding the hungry, building homes, renovating schools, installing clean water systems and helping in many more ways to give back to communities across six continents.

Ford Britain Trust

The Ford Britain Trust was established back in April 1975, with the purpose of supporting the local communities where Ford and its employees live and work. Ford Britain Trust pays particular attention to projects focusing on education (including STEM), sustainability and the environment, those with disabilities, youth activities and projects that provide clear benefits to local communities. To date more than £4 million has been awarded by way of grant donations to various organisations and good causes.

Ford Motor Company Fund

As the automaker's philanthropic arm, Ford Motor Company Fund has been supporting underserved and underrepresented communities for more than 70 years. Working with non-profit organizations, community partners, and dealers across the Ford network in the U.S. and around the world, Ford Fund provides resources and opportunities that advance equity and help people reach their highest potential. Since 1949, Ford Fund has invested in initiatives that ensure basic needs are met, provide access to essential services, offer tools to build new skillsets and open pathways to high quality jobs. Ford Fund's international community investments are managed and administered by GlobalGiving—the automaker's long-time disaster relief and global grant-making partner.

Health and Safety

Health and Safety of employees remains a priority consideration within the Company.

The Chief Medical Officer, continues to manage the Company's site occupational health services in partnership with an external medical specialist provider. Together they deliver a professional service designed to provide independent assessment and advice on work and health, alongside emergency call out and walk in services.

Work continues into 2023 to develop the service to support the mental and physical health of our workforce, and is aligned to wellbeing initiatives developed in collaboration with wellbeing teams.

With safety professionals located across all main locations, the Safety team continue to advise and support management to improve safety metrics and key performance indicators across all Ford locations while improving internal assessment process ratings.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

STRATEGIC REPORT (continued)

Health and Safety (continued)

Ford complies with health and safety legal requirements and has processes in place to minimise health and safety risks throughout the operation. This is achieved by ensuring that Ford health and safety management systems are consistent with UK health and safety executive guidance for managing health and safety.

In 2022 Ford have implemented new processes to control risks associated with the design, development, and manufacture of Battery Electric Vehicles.

In manufacturing areas, Ford utilise a standardised safety operating system which specifies minimum operating requirements to manage safety in operational areas. The Company remains committed to improving essential safety skills at all levels of the organisation offering a comprehensive range of targeted health and safety training programmes.

Corporate social responsibility

"Contributing to a better world has always been a core value at Ford, and our commitment to sustainability is a key part of who we are. Our vision is to create an even more dynamic and vibrant company that improves people's lives around the world and creates value for all of our stakeholders."

William Clay Ford, Jr., Executive Chairman, Ford

The Company has well established policies for safeguarding and improving the social and environmental impact of its operations. For example, all the Company's manufacturing locations are ISO14001 certified and, as part of a joint initiative agreed with its European Works Council, it operates to agreed social rights and social responsibility principles. We also encourage our suppliers both to work to achieve ISO14001 certification and to operate their own plants to a standard consistent with our principles. Globally 100% of our production suppliers, who wish to seek future business with Ford, are ISO14001 certified. We operate a diversity award program; the Chairman's leadership award for diversity (CLAD). These annual awards celebrate our efforts in Europe for an inclusive culture. This approach is mirrored by our Purchasing team, who evaluate and reward Ford suppliers for their diversity efforts.

The Company continues to undertake class leading environmental and social responsibility actions. The Company's commitment to the environment is demonstrated through examples such as: the wind turbines to power the state-of-the-art Dagenham Diesel Centre manufacturing facility at Dagenham. The site is a zero waste to landfill site, we compress and extract and recycle oil from plant sludge and use the dried material as a fuel for incinerators.

Social responsibility is equally demonstrated through a focus on vehicle safety and our commitment to the community. Our corporate safety policy outlines our commitment to design and build vehicles that meet or exceed applicable laws and regulations, while meeting the safety needs and expectations of our customers. In line with our policy letter, Ford is continuously working to enhance the safety of our products.

Our commitment to the community is built around the support and encouragement of various employee volunteering efforts, the backing and operating of the Ford Britain Trust and the on-going relationship and support of a range of charitable and altruistic activities.

Our employees are committed to helping the community through their volunteering efforts. Volunteering includes both in-person and virtual volunteering. During 2022 employees supported the Social Shifters Global Innovation Challenge as volunteer virtual judges, helping young leaders and founders to explore, start and grow ideas that help solve pressing social issues.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

STRATEGIC REPORT *(continued)*

Corporate social responsibility *(continued)*

Global Caring Month, which takes place during September, is a concentrated focus on community service, with volunteers supporting projects focused on education, equity, economic and community development, health and basic needs programs. Ford Motor Company Fund, working with their international grant making partner GlobalGiving, also provide the opportunity for non-profits to receive a volunteering grant so they can buy the necessary tools and supplies to support the activities or a gratitude grant, designed to help them to sustain or expand their charitable services. In 2022 charities supported in the UK included Essex and Herts Air Ambulance Trust, The Bike Project and Mind in the City, Hackney and Waltham Forest.

The Ford Motor Company Fund is the philanthropic arm of Ford and has been supporting communities at a local level globally for more than 70 years. Their work is rooted in Ford's longstanding commitment to building a better world where every person is free to move and pursue their dreams. By providing access to essential needs and services and developing programs that remove barriers to economic success, Ford Fund helps people overcome obstacles to upward mobility.

In the UK, Ford Fund projects include the Ford College Community Challenge, Ford Fund Smart Mobility Challenge, Ford Driving Skills for Life, STEM education programs such as the Primary Engineer School program and the Athena program run with Loughborough University. Ford Fund also support Future Youth Zone based in Barking and Dagenham and provide basic needs support and food and meal delivery services working with The Felix Project, Crisis UK and Oxford Mutual Aid.

CORPORATE GOVERNANCE REPORT

Corporate Governance Report for the year ended 31 December 2022

The Board is committed to maintaining high standards of corporate governance to support the delivery of the business strategy, to maintain positive relations with all the Company's stakeholders and to create long-term value for its shareholder.

During the reporting year, the Company applied the Wates Corporate Governance Principles for Large Private Companies (the "Wates Principles").

This report provides details on how the Board have approached their responsibilities during the year which, in turn, demonstrates how the Directors have acted in a way which is likely to promote the success of the company, as set out in section 172(1) and is explained more fully using the six Wates principles set out below.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

Wates Principles	
Purpose An effective board promotes the purpose of a company and ensures that its values, strategy and culture align with that purpose.	The Company's values are aligned with those of Ford Motor Company. A principal value is that employees act with integrity and demonstrate ethical behaviour, as set out in the Company's Employee Handbooks and related policies. The Company's employee engagement and equal opportunities and diversity initiatives are set out on pages 5-7 in the Company's Strategic Report. The Board is fully aligned with Ford Motor Company's purpose: To help build a better world, where every person is free to move and pursue their dreams. This will be achieved globally through the delivery of the Ford+ plan which is customer-centric and is focused on enriching customer experience, disruptive technology, building new capabilities and deepening loyalty.
Composition Effective board composition requires an effective chair and a balance of skills, backgrounds, experience and knowledge, with individual directors having sufficient capacity to make a valuable contribution. The size of a board should be guided by the scale and complexity of the company.	The Board composition for 2022 is detailed in the Directors' Report on page 13. The Board is satisfied that its composition includes individuals with a mix of skills and experience that are up to date, cover the key business areas necessary to make informed decisions and provide effective oversight of the Company's business risks. The Board and its committees regularly receive briefings on pertinent thematic issues.
Responsibilities A board should have a clear understanding of its accountability and terms of reference. Its policies and procedures should support effective decision-making and independent challenge.	The chairperson or their delegate chairs regular Board meetings which have Board presentations containing information and data to drive matters requiring discussion and decision. There are clear lines of responsibility between the members of the Board in their work responsibilities, thereby ensuring a broad range of expertise and knowledge to make informed decisions. The Board has developed a list of matters to be covered at the Board meetings throughout the year, which includes standing agenda items for each meeting which cover the key operating areas of the Company's business together with report outs from subject matter experts in other key areas on a periodic basis, including internal controls, pensions, property, tax matters, environmental matters.
Opportunity and risk A board should promote the long-term success of the company by identifying opportunities to create and preserve value and establishing oversight for the identification and mitigation of risks.	The Chairperson has regular meetings with the Ford of Europe decision makers to discuss the Company strategy. Representatives from the Board engage with Ford Motor Company to ensure that the Company's plans are fully aligned with the group. One of the Directors attends the regular Ford of Europe Audit Committees and, where appropriate, would report back matters to the Board which have material implications for the Company. Each of the Directors for their respective specialist areas receives a copy of any audit report conducted for their area. Where appropriate, the Director would raise any material issues to the Board.
Remuneration A board should promote executive remuneration structures aligned to the sustainable long-term success of a company, taking into account pay and conditions elsewhere in the company.	The Company rewards employees and members of the Board for performance and contributions to business success. The Company's compensation and benefits package in total will be competitive with leading companies. Compensation is generally comprised of three key elements; base salary, annual bonus and long term incentive plans or stock-based awards for certain levels of employees.
Stakeholders A board has a responsibility to oversee meaningful engagement with material stakeholders, including the workforce, and have regard to that discussion when taking decisions.	The board fostered good stakeholder relationships based on the company's purpose. Full particulars of the Company's stakeholder engagement are contained in the section 172 statement in the Strategic Report on pages 3-5.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

DIRECTORS' REPORT

Directors' Report for the year ended 31 December 2022

The directors present their ninety-fourth report and audited financial statements of the Company for the year ended 31 December 2022.

Directors

The directors of the Company who were in office during the year and up to the date of signing the financial statements were:

T. Slatter (Chairman) (appointed 1 January 2022, resigned 29 July 2023)
L. Brankin (Chair & Managing Director)
J. Schep (resigned 24 August 2023)
T. Sapsford (appointed 13 December 2022)
B. Spendlove (resigned 1 August 2022)
S. Duerholt (appointed 9 May 2022, resigned 1 January 2023)
A. Duckers (appointed 1 January 2023)
J. Gardiner (resigned 31 March 2022)
J. Skerry
N. Walker

Qualifying indemnity provisions

Qualifying third party indemnity provisions and pension scheme indemnity provisions are in force for the Company's directors as of the date of this report and were in force for the duration of 2022.

Future developments globally and in Europe

In 2021, Ford committed that by mid-2026, 100 percent of Ford's passenger vehicle range in Europe will be zero-emissions capable, all-electric or plug-in hybrid, and will be completely all-electric by 2030. Similarly, Ford's entire commercial vehicle range are expected to be all-electric or plug-in hybrid by 2035.

In early March 2022, Ford announced that it would introduce three new electric passenger vehicles and four new electric commercial vehicles in Europe by 2024; and that it plans to sell more than 600,000 EV in the region by 2026. Confirmation of planned production of EV in Cologne, Germany, now expected to be 1.2 million vehicles over six years, with a total product investment of \$2 billion. Ford Europe also boosted electric and commercial vehicle capacity, with Ford Otosan Joint Venture (JV) assuming ownership of Ford's Romanian manufacturing operations building Ford Puma.

Also in 2022, Ford announced distinct electric vehicle and internal combustion businesses poised to compete and win against both new EV competitors and established automakers. The company was reorganized to deliver for customers with the focus and speed of a start-up at the leading edge of technology, supported by deep expertise in engineering and high-volume production. Ford Blue will build out company's iconic portfolio of internal combustion engine (ICE) vehicles to drive growth and profitability, Ford Model e will accelerate innovation and delivery of breakthrough electric vehicles at scale, and develop software and connected vehicle technologies and services for all of Ford, and Ford Pro as a global business dedicated to delivering solutions to commercial customers of all sizes to accelerate their productivity.

DIRECTORS' REPORT *(continued)*

Future developments globally and in Europe *(continued)*

In June 2022, Ford Europe announced another important stride toward an all-electric future, confirming that it chose its plant in Valencia, Spain, as the preferred site to assemble vehicles based on a next-generation electric vehicle architecture. Pending product approval, the Valencia plant could produce breakthrough electric and connected vehicles beginning later this decade.

Together, these initiatives will help Ford achieve zero emissions for all vehicle sales and carbon neutrality across its European footprint of facilities, logistics and suppliers by 2035.

Specific future developments in the UK

Ford announced in March 2021 that the Ford Dagenham Engine Plant to the east of London will manufacture the latest advanced technology diesel engines for the next generation Ford Transit Custom commercial vehicle range to be built by Ford Otosan – Ford's joint venture in Turkey – in Kocaeli, Turkey, from early 2023. The next generation Volkswagen 1-tonne commercial vehicle also will be built in Kocaeli as part of the Ford-Volkswagen Alliance.

The announcement with its anticipated incremental engine volumes will help to safeguard jobs at Dagenham Engine Plant.

As Europe's No.1 commercial vehicle brand, Ford's Dagenham engine manufacturing facility today exports much of its diesel engine production to Ford Otosan where the engines are fitted into Ford Transit vehicles, around 30 percent of which are then exported from Turkey to the UK.

In total, Ford and Ford Otosan business constitutes more than 10 percent of the total trade volume between the UK and Turkey, and so the trade agreement reached between Turkey and the UK at the end of 2020 was extremely significant for Ford and Ford Otosan and helped to secure jobs in both countries.

Dividends

The directors recommend that a dividend of £100,000,000 (10.17 pence per share) be paid in respect of 2022 (2021: £nil).

Political donations

There were no contributions to political parties in respect of 2022 (2021: £nil).

Ford Motor Company Limited

for the year ended 31 December 2022

DIRECTORS' REPORT *(continued)*

Financial risk management

The Company's operations expose it to a variety of financial risks that include price risk, credit risk, liquidity risk, interest rate risk and exchange rate risk. The Company has in place a risk management programme that sets out specific guidelines to manage these risks and the circumstances where it would be appropriate to use financial instruments to manage these.

Price risk

The Company is exposed to commodity price risk as a result of its operations and has entered into arrangements with related parties to manage a portion of this risk. The Company holds no listed equity investments as part of its core business. However, the Company maintains defined benefit pension schemes with material holdings in return seeking investments. The Company performs regular reviews to ensure the pension schemes are adequately funded over time.

Credit risk

The Company has implemented policies that require appropriate credit checks on potential customers. The amount of exposure to any individual counterparty is subject to a limit, which is specified within individual agreements.

Liquidity risk

The Company maintains access to short-term financing designed to ensure sufficient liquidity.

Interest rate cash flow risk

From time to time, the Company has floating rate interest bearing assets and liabilities which create a net exposure to changes in interest rates. The Company has chosen not to use derivative financial instruments to manage these risks, but the directors will revisit the appropriateness of this policy should the Company's exposure change significantly.

Exchange rate risk

The Company has exposures to exchange risks due to sourcing materials and selling products in various currencies. The Company has entered into arrangements with related parties to manage a portion of these risks.

The Company has certain of its assets denominated in non-functional currencies, created both cash flow and statement of financial position re-valuation risk. The Company manages this risk through the use of foreign exchange derivatives resulting in no material impact from exchange rate changes.

Research and development

Research and development as part of the ongoing drive to maintain a flow of customer-focused, innovative and affordable vehicle launches is now carried out by the Company's parent company, Ford Technologies Limited. The Company continues to be a substantial employer of engineers and technicians, a centre of excellence for leading edge automotive technologies and is a major contributor towards the UK Government's objective of further developing the fields of science, engineering and technology.

DIRECTORS' REPORT *(continued)*

Streamlined Energy and Carbon Reporting 2022 *(continued)*

Scope and Methodology

Ford Motor Company Limited (FMCL) reports greenhouse gas (GHG) emissions in accordance with the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018. We follow the HM Government Environmental Reporting Guidelines (March 2019) and have defined the scope of the FMCL SECR report as all energy use and carbon emissions from our operations in the United Kingdom, using the financial control boundary approach.

- Scope 1 emissions are generated from the gas and gas oil used in all buildings where FMCL operates in the UK and emissions generated from company vehicles and trucks used for business travel in the UK. We also include the fuel combusted for product testing.
- Scope 2 emissions are generated from the use of electricity in all buildings FMCL occupies in the UK.
- Scope 3 emissions are generated from employees on company business using their own or leased vehicles.

The reporting period for GHG emissions ran from 1 January to 31 December 2022. Conversion factors were taken from the 2022 UK Government's Conversion Factors for Company Reporting document. Both location based and market based emissions are presented.

Where possible, energy use was determined from supplier invoices or sub meter readings. Where the landlord controls the supply via a service arrangement, estimates were made based on the floor space occupied or standard consumption values. Transport emissions for company owned trucks and emissions from product testing were determined from fuel consumption. Fuel expense and mileage claims were used to determine emissions from other business travel in company owned or leased vehicles as well as employee vehicles on company business.

Energy Efficiency Actions Taken

All FMCL operated facilities are supplied with electricity from renewable energy sources, and four wind turbines with a total capacity of 6.4 MW generate electricity directly at our manufacturing locations.

Energy efficiency is engrained in our daily processes through the Ford Energy Management Operating System (EMOS). Under EMOS, targets are set and tracked for each production facility and road maps are developed to achieve these targets. Energy teams work on identifying improvement opportunities.

Best practice energy efficiency actions have been taken such as switching off all engines and ancillaries on a daily basis, and at the weekends in the plant. In addition to this, a new steam control procedure has been implemented to align usage against weather forecasts and minimise waste. The site also continues to install LED lighting throughout the facility to reduce electricity demand. Remote working and the use of virtual meetings has reduced employee commuting. Additional electric vehicle charging points were installed to allow employees to charge their vehicles while at work, as the next phase of the electrification infrastructure role out.

Annual Report and Financial Statements
for the year ended 31 December 2022

DIRECTORS' REPORT *(continued)*

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

DIRECTORS' REPORT *(continued)*

Going Concern

The directors have considered the financial position of the Company as at 31 December 2022 (net current assets £1,450m, net assets of £3,045m); the trading arrangements of the Company within the Ford group; and the projected cash flows and financial performance of the Ford group within Europe and globally for the 12 months from the date of approval of these financial statements. The directors also have taken action to ensure that appropriate cash resources are available to fund the Company's operations. Therefore the directors consider, after making appropriate enquiries that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

Independent auditors

PricewaterhouseCoopers LLP have expressed a willingness to remain as independent auditors of the Company.

On behalf of the Board

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF FORD MOTOR COMPANY LIMITED

Report on the audit of the financial statements

Opinion

In our opinion, Ford Motor Company Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 December 2022; the Income Statement, the Statement of Comprehensive Income and the Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

We have provided no non-audit services to the company in the period under audit.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- Reviewing management's assessment of the going concern risks faced by the business;
- Understanding the nature of the business and its arrangements with other group entities;
- Considering the financing and liquidity of the company, including the covenants related to debt and the ability of the company to achieve such covenants; and
- Considering the wider automotive market, external economic and social factors which may have a bearing on the assessment.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Companies Act 2006 and UK tax legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the posting of inappropriate journal entries to manipulate financial results and management bias in accounting estimates. Audit procedures performed by the engagement team included:

- Held discussions with management, including consideration of known or suspected instances of non-compliance with laws and regulations and/or fraud;
- Evaluated the design effectiveness of management's control activities designed to prevent and detect irregularities of management's controls to prevent and detect irregularities;
- Reviewed meeting minutes of the board of directors for consideration of known or suspected instances of non-compliance with laws and regulations and/or fraud;
- Challenged assumptions and judgements made by management in determining their significant accounting estimates and material judgements, in particular in relation to the valuation of the warranty and product recalls provision, estimation of the useful lives of property, plant and equipment and the valuation of the defined benefit pension obligation;
- Evaluated whether there was evidence of management bias that presented a risk of material misstatement due to fraud and assessed the rationale for significant contracts and transactions entered into;
- Identified and tested journal entries based on our risk assessment;
- Reviewed the disclosures in the Annual Report and Financial Statements against the specific legal requirements; and
- Incorporated elements of unpredictability into our audit procedures

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records or returns.

We have no exceptions to report arising from this responsibility.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 1. BACKGROUND AND BASIS OF PREPARATION

Background

The principal activities in which the Company is currently engaged are the manufacture of low emission diesel engines; and the distribution and sale of motor vehicles and automotive components and associated customer after sales support.

The Company is a private company limited by shares, incorporated and domiciled in the United Kingdom. Registered office: Arterial Road, Laindon, Essex, England, SS15 6EE.

Going Concern

The directors have considered the financial position of the Company as at 31 December 2022 (net current assets £1,450m, net assets of £3,045m); the trading arrangements of the Company within the Ford group; and the projected cash flows and financial performance of the Ford group within Europe and globally for the 12 months from the date of approval of these financial statements. The directors also have taken action to ensure that appropriate cash resources are available to fund the Company's operations. Therefore the directors consider, after making appropriate enquiries that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

Basis of Preparation

Statement of Compliance

The financial statements of the Company have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of derivative financial assets, pension surplus and financial liabilities measured at fair value through profit or loss, and in accordance with the Companies Act 2006.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

The Company is itself a subsidiary company of Ford Motor Company, a company incorporated in Delaware, USA, and is exempt from the requirement to prepare group financial statements by virtue of Section 401 of the Companies Act 2006. Copies of the ultimate holding company's financial statements can be obtained from the address outlined in Note 34.

The principal accounting policies applied in the preparation of the financial statements of the Company are set out in Note 2. These policies have been applied consistently to all years presented, unless otherwise stated.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 1. BACKGROUND AND BASIS OF PREPARATION *(continued)*

Basis of Preparation *(continued)*

Presentation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in 'Pounds Sterling' (£), which is also the Company's functional currency. All financial information has been rounded to the nearest million, except where otherwise indicated.

The statement of financial position differentiates between current and non-current assets and liabilities. Assets and liabilities are classified as current if they mature within one year.

FRS 101

The following exemptions from the requirements of IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101:

- Paragraphs 45(b) and 46 to 52 of IFRS 2, 'Share-based payment' (details of the number and weighted-average exercise prices of share options, and how the fair value of goods or services received was determined).
- IFRS 7, 'Financial Instruments: Disclosures'.
- Paragraphs 91 to 99 of IFRS 13, 'Fair value measurement' (disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities).
- Paragraph 38 of IAS 1, 'Presentation of financial statements' comparative information requirements in respect of:
 - paragraph 79(a)(iv) of IAS 1;
 - (ii) paragraph 73(e) of IAS 16 Property, plant and equipment;
 - (iii) paragraph 118(e) of IAS 38 Intangible assets (reconciliations between the carrying amount at the beginning and end of the period).
- The following paragraphs of IAS 1, 'Presentation of financial statements':
 - 10(d), (statement of cash flows),
 - 16 (statement of compliance with all IFRS),
 - 38A (requirement for minimum of two primary statements, including cash flow statements),
 - 38B-D (additional comparative information),
 - 111 (cash flow statement information), and
 - 134-136 (capital management disclosures).
- IAS 7, 'Statement of cash flows'.
- Paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective).
- Paragraph 17 and 18A of IAS 24, 'Related party disclosures' (key management compensation).
- The requirements in IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more members of a group.

Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

Revenue is generated primarily by sales of vehicles, parts and accessories. Revenue is recorded when obligations under the terms of a contract with our customer are satisfied; generally, this occurs with the transfer of control of our vehicles, parts or accessories. Revenue is measured as the amount of consideration we expect to receive in exchange for transferring goods. When we give our dealers the right to return eligible parts for credit, we reduce the related revenue for expected returns.

Sales and Marketing Incentives

Sales and marketing incentives generally are recognised as revenue reductions in *Revenues*. The incentives generally take the form of cash payments to dealers and dealers' customers. The reduction to revenue is accrued at the later of the date the related vehicle is sold or the date the incentive program is both approved and communicated. We generally estimate these accruals using incentive programs that are approved by the year end which is the date of the statement of financial position and are expected to be effective at the beginning of the subsequent period.

Supplier Price Adjustments

We frequently negotiate price adjustments with our suppliers through a production cycle, even after receiving production materials. These price adjustments relate to changes in design specification or other commercial terms such as economics, productivity, and competitive pricing. We recognised price adjustments when we reach a final agreement with our suppliers. In general, we avoid direct price changes in consideration of future business; however, when these occur, our policy is to defer the financial statement impact of any such price change given explicitly in consideration of future business where guaranteed volumes are specified.

Foreign Currency Translation

Income statement transactions in foreign currency are translated into pounds sterling at rates ruling on the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the rates ruling at the year end date. The effect of this remeasurement process, and the results of our foreign currency hedging activities are reported in *Cost of sales and Selling, administrative, and other expenses*.

Trade Receivables

Trade and other receivables consist primarily of receivables from contracts with our customers for the sale of vehicles, parts, and accessories. Trade receivables initially are recorded at the transaction amount and are typically outstanding for less than 30 days. Each reporting period, we evaluate the collectability of the receivables and record an allowance for expected credit losses representing our estimate of the expected losses that result from all possible default events over the expected life of a receivable. Expected credit loss rates are applied to receivables that are grouped based on their number of days past due (aging buckets) to calculate the overall allowance. Default occurs when a receivable is 90 days or more past due. The allowance for expected credit losses is measured using a provision matrix method (simplified approach) based on the number of days a receivable is past due. A receivable is written-off when it is deemed uncollectible and all collection efforts have been exhausted. Additions to the allowance for expected credit losses are made by recording charges to expected credit losses expense reported in *Selling, administrative, and other expenses*.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Trade Receivables *(continued)*

Ford's exposure to credit risk arising from trade receivables is influenced primarily by the default risk of customer base and the risk associated with the industry and the country in which the customers operate. Our credit policy requires that credit limits be established for each external customer before the first shipment is released. The process of establishing or reaffirming credit limits considers the financial conditions and creditworthiness of the customer based on information such as current and historical financial statements, credit agency reports, and trade references. The credit limits are monitored and reviewed at least annually. Sales exceeding the limits are placed on hold if necessary to limit risk.

The carrying amount of trade receivables represents the maximum credit exposure. Ford may require a mortgage collateral from certain dealers for vehicle sales. In a few markets, we may require bank guarantees for direct sales or service parts for certain trade receivables. Ford does not have trade receivables and contract assets for which no loss allowance is recognized because of collateral.

Income Taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, items recognised directly in equity, or items recognised in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised for temporary differences that exist between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future;

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised for unused tax losses, tax credits, and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

In determining the amount of current and deferred tax the Company takes into account the impact of uncertain tax positions and whether additional taxes, penalties and late-payment interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact the tax expense in the period that such a determination is made.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Presentation of Sales and Sales-Related Taxes

We collect and remit taxes assessed by different governmental authorities that are both imposed on and concurrent with a revenue-producing transaction between us and our customers. These taxes may include, but are not limited to, sales, value-added, and some excise taxes. We report the collection of these taxes on a net basis (excluded from revenues).

Cash and Cash Equivalents

Included in *Cash and cash equivalents* are highly liquid investments that are readily convertible to known amounts of cash.

Derivative Financial Instruments and Hedge Accounting

In the normal course of business, our operations are exposed to global market risks, including the effect of changes in foreign currency exchange rates, certain commodity prices, and interest rates. To manage these risks, we enter into highly effective derivative contracts:

- Foreign currency exchange contracts, including forwards, that are used to manage foreign exchange exposure;
- Commodity contracts, including forwards, that are used to manage commodity price risk;
- Interest rate contracts, including swaps, that are used to manage the effects of interest rate fluctuations; and
- Cross-currency interest rate swap contracts that are used to manage foreign currency and interest rate exposures on foreign-denominated debt.

Our derivatives are over-the-counter customized derivative transactions and are not exchange-traded. We review our hedging program, derivative positions, and overall risk management strategy on a regular basis.

Derivative Financial Instruments and Hedge Accounting. Derivatives are recorded on the statement of financial position at fair value and presented on a gross basis. Derivative assets and liabilities are reported in *Derivative financial instruments*.

We have elected to apply hedge accounting to certain derivatives. Derivatives that are designated in hedging relationships are evaluated for effectiveness using regression analysis at the time they are designated and throughout the hedge period. The ratio of the quantity of the hedged item and the notional amount of the hedge is always 1 for 1. Some derivatives do not qualify for hedge accounting; for others, we elect not to apply hedge accounting.

Cash Flow Hedges. Our Automotive segment has designated certain forward contracts as cash flow hedges of forecasted transactions with exposure to foreign currency exchange and commodity price risks.

The effective portion of changes in the fair value of cash flow hedges is deferred in *Accumulated other comprehensive income/(loss)* and is recognized in *Cost of sales* when the hedged item affects earnings. The ineffective portion is reported in *Cost of sales* in the period of measurement. Our policy is to de-designate foreign currency exchange cash flow hedges prior to the time forecasted transactions are recognized as assets or liabilities on the statement of financial position and report subsequent changes in fair value through *Cost of sales*. If it becomes probable that the originally-forecasted transaction will not occur, the related amount included in *Accumulated other comprehensive income/(loss)* is reclassified and recognized in earnings.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is determined by methods approximating the first-in first-out ("FIFO") principle, and includes expenditures incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of finished products and work in progress, cost includes an appropriate share of production overhead based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Raw Material Arrangements

We may, at times, negotiate prices for and facilitate the purchase of raw materials on behalf of our suppliers. These raw material arrangements, which take place independently of any purchase orders issued to our suppliers, are negotiated at arms' length and do not involve volume guarantees. When we pass the risks and rewards of ownership to our suppliers, including inventory risk, market price risk, and credit risk for the raw material, we record both the cost of the raw material and the income from the subsequent sale to the supplier in cost of sales.

Intangible Assets

Quotas for carbon emissions are capitalised as intangible assets, these are not amortised and are utilised when surrendered to settle carbon emission liabilities. Quotas are initially recognised at fair value and subsequently revalued at each year with the gain or loss being booked to *Selling, administrative, and other expenses* in the income statement.

Costs incurred to develop non-production related software (whether the software is developed internally or by a third party vendor) are capitalised on the basis of the costs incurred to acquire and / or bring them to use.

Non-production related software is amortised primarily using the straight-line method over the estimated useful life of the software. Useful lives range from 3 years for software and 8 years for mainframe and client based software.

Property, Plant and Equipment

Property, plant, and equipment are recorded at cost, net of accumulated depreciation and impairments. We capitalise new assets when we expect to use the asset for more than one year. Routine maintenance and repair costs are expensed when incurred.

We recognise the gain or loss on disposal of an item of property, plant, and equipment within *cost of sales* in our income statement.

Depreciation is recognised in the income statement on a straight-line basis over the estimated useful lives of the property, plant, and equipment, taking into consideration our best estimate of its residual value. We record and depreciate separately each major component of a single asset when the components have significantly different useful lives. We generally depreciate leased assets over the shorter of the lease term and their useful lives.

Property, plant and equipment are depreciated primarily using the straight-line method over the estimated useful life of the asset. Useful lives range from 3 years to 36 years. The estimated useful lives generally are 14.5 years for machinery and equipment, 30 years for land improvements, and 36 years for buildings. Tooling generally is amortised over the expected life of a product program using a straight-line method. Land is not depreciated as it is treated as having an infinite life and construction in progress is not depreciated until asset comes into use.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Lease Commitments

Leases are recognized as a right-of-use asset and a corresponding liability at the date in which the leased asset is available for use. The right-of-use assets and lease liabilities are reported in Property, plant, and equipment and Other Financial Liabilities, respectively, on our statement of financial position.

Investment Properties

Investment properties are accounted for in accordance with IAS 40 where the cost model is followed. Useful economic lives are 30 years for land improvements, and 36 years for buildings.

Investments are impaired only if there is objective evidence of impairment as a result of one or more events that occurred

Government Incentives

Government grants that relate to specific capital expenditure are credited to deferred income when received and are credited to the income statement over the related useful economic life of the assets acquired with the grant. The portion of government grants which have not been credited to the income statement are included within deferred revenue and other liabilities. Other government grants are credited to the income statement when received.

Pension/Employee Benefits

We provide short-term and long-term benefits to our employees. Short-term employee benefit obligations generally take on the form of salaries and bonuses and are measured on an undiscounted basis. We generally expense short-term benefits in the period the related benefit is provided. Long-term employee benefit obligations generally take on the form of defined benefit pension obligations.

Defined benefit pension obligations are measured based on the present value of projected future benefit payments for all participants for services rendered to-date. The measurement of projected future benefits is dependent on the provisions of each specific plan, demographics of the group covered by the plan, and other key measurement assumptions. For plans that provide benefits dependent on salary assumptions, we include a projection of salary growth in our measurements. No assumption is made regarding any potential changes to benefit provisions beyond those to which we are presently committed (e.g., in existing labour contracts).

The net periodic benefit costs associated with the Company's defined benefit pension plans are determined using assumptions regarding the benefit obligation and the plan assets (where applicable) as of the beginning of each year. Net periodic benefit costs are recorded in Cost of sales and Selling, administrative, and other expenses. The expected return on pension scheme assets, net of interest costs on pension liabilities are included within Other interest income and finance income, net. The funded status of the benefit plans, which represents the difference between the benefit obligation and fair value of plan assets, is calculated on a plan-by-plan basis. The benefit obligation and related funded status are determined using assumptions as of the end of each year. The impact of plan amendments and actuarial gains and losses are recorded in *Accumulated other comprehensive loss*, and then reclassified to retained earnings at the end of the year.

Curtailment gains or losses are recorded when an event occurs that significantly reduces the number of employees covered by the plan. We record a curtailment gain when the employees who are entitled to the benefits terminate their employment; we record a curtailment loss when it becomes probable a loss will occur.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pension/Employee Benefits (continued)

Ford shall recognise a settlement gain or loss in the period in which a transaction that permits derecognition of the net defined benefit liability. The gain or loss on a settlement shall comprise: (a) the present value of the obligation being settled, as determined on the date of the settlement; and (b) the settlement price, including any assets transferred and/or payments made.

Ford shall remeasure the plan as of the date of the action if there is a significant curtailment or settlement.

Our policy for funded pension plans is to contribute annually, at a minimum, amounts required by applicable laws and regulations. We may make contributions beyond those legally required.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognised in profit or loss immediately. To the extent that the benefits vest immediately, the expense is recognised immediately in profit or loss.

Termination and similar benefits are recognised as an expense when management is committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense when we have made an offer and the employee accepts the offer, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

Provisions

A *provision* is recognised if, as a result of a past event, we have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. We record provisions for warranty, dealer and customer claims, environmental remediation, legal and similar matters.

Due to the inherent uncertainty of the amount and timing of expected payments, we measure our provisions using patterned estimation models that take into consideration historical experience with similar matters, recent facts and circumstances, as well as assumptions about current trends. Each measurement reflects our best assumptions at each reporting period but the ultimate outcome of any matter could result in an amount different than the amount we have accrued and/or disclosed.

Provisions expected to be paid in a period of greater than one year are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as interest expense in *Other interest income and finance income, net*.

Warranties

We accrue obligations for warranty costs and field service actions (i.e. safety recalls, emission recalls, and other product campaigns) at the time of sale. We establish estimates for warranty and field service action obligations using a patterned estimation model using historical information regarding the nature, frequency, and average cost of claims for each vehicle line by model year. We re-evaluate the adequacy of our accruals on a regular basis and any revisions to our estimated obligation for warranties and field service actions are reported as *Changes in accrual related to pre-existing warranties*.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Environmental Remediation

We accrue for costs related to legal obligations to perform certain activities in connection with the retirement, abandonment, or disposal of our assets for which the fair value can be reasonably estimated. These conditional asset retirement obligations relate to the estimated costs for asbestos abatement and the removal of other regulated building materials.

Dealer and Customer Claims

We accrue for dealer and customer claims related to incentive programs that are approved as of the reporting date and are expected to be effective at the beginning of the subsequent period.

Investments in Subsidiaries and Associated Undertakings

Investments in subsidiaries and associated undertakings are stated at cost less provisions for impairment. An impairment loss is recognised following the identification of an impairment indicator if the recoverable amount of an investment is lower than its carrying amount.

Debt

Debt is initially recognised at fair value, net of any transaction costs incurred. Debt is subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the term of the debt using the effective interest method. Transaction costs incurred are amortised over the term of the debt.

Litigation and Claims

Litigation and claims are accrued when losses are deemed probable and reasonably estimable. In evaluating matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood of our prevailing, and the severity of any potential loss. We re-evaluate and update our provisions and accruals as matters progress over time.

Share-Based Payments

Share-based payment arrangements include awards that will be settled by the delivery of shares and awards that will be settled by the delivery of cash. Awards that will be settled by the delivery of shares are measured at fair value on the grant date. Awards that will be settled in cash are recognised as a liability and are measured at fair value at the end of each reporting period and at settlement. The fair value of the awards that employees are expected to earn is recognised as compensation cost over the vesting period. Changes in the number of awards that employees are expected to earn are recognised in profit or loss over the vesting period.

We measure the fair value of stock options using an option-pricing model and the fair value of restricted stock units using the closing market price of our Common Stock of the ultimate holding Company on the grant date.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 3. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with FRS 101 requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

We consider an accounting estimate to be significant if: 1) the accounting estimate requires us to make assumptions about matters that were highly uncertain at the time the accounting estimate was made, and 2) changes in the estimate that are reasonably likely to occur from period to period, or use of different estimates that we reasonably could have used in the current period, would have a material impact on our financial condition or results of operations.

There are other items within our financial statements that require estimation, but are not deemed critical as defined above. Changes in estimates used in these and other items could have a material impact on our financial statements.

Warranty and Product Recalls

Nature of Estimates Required. We create a provision for the estimated cost of basic warranty coverage for each vehicle at the time of sale. We establish estimates using historical information regarding the nature, frequency, and average cost of claims for each vehicle line by model year. Where little or no claims experience exists, we rely on historical averages. See Note 25 for information regarding costs for warranty actions. Separately, we also accrue at the time of sale for potential product recalls based on historical experience. Product recalls are distinguishable from warranty coverage in that the actions may extend beyond basic warranty coverage periods.

Assumptions and Approach Used. We re-evaluate our estimate of warranty obligations on a regular basis. Experience has shown that initial data for any given model year may be volatile; therefore, our process relies on long-term historical averages until sufficient data are available. As actual experience becomes available, we use the data to modify the historical averages in order to ensure that the estimate is within the range of likely outcomes. We then compare the resulting accruals with present spending rates to ensure that the balances are adequate to meet expected future obligations. Based on these data, we revise our estimates as necessary. Due to the uncertainty and potential volatility of these factors, changes in our assumptions could materially affect our financial condition and results of operations.

Pensions

Nature of Estimates Required. The estimation of our defined benefit pension plan obligations and expenses requires that we make use of estimates of the present value of projected future payments to all participants, taking into consideration the likelihood of potential future events such as demographic experience. Plan obligations and expenses are based on existing retirement plan provisions. No assumption is made regarding any potential future changes to benefit provisions beyond those to which we are presently committed (e.g., in existing labour contracts).

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 3. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Pensions (continued)

Assumptions and Approach Used. The assumptions used in developing the required estimates include the following key factors:

- Discount rates. Our discount rate assumption is based primarily on the results of a cash flow matching analysis, which matches the future cash outflows for each major plan to a yield curve based on high-quality bonds specific to the country of the plan. Benefit payments are discounted at the rates on the curve and a single discount rate specific to the plan is determined.
- Salary growth. Our salary growth assumption reflects our long-term actual experience, outlook, and assumed inflation.
- Inflation. Our inflation assumption is based on an evaluation of external market indicators, including real gross domestic product growth and central bank inflation targets.
- Expected contributions. Our expected amount and timing of contributions is based on an assessment of minimum requirements, cash availability, and other considerations (e.g., funded status, avoidance of regulatory premiums and levies, and tax efficiency).
- Retirement rates. Retirement rates are developed to reflect actual and projected plan experience.
- Mortality rates. Mortality rates are developed to reflect actual and projected plan experience.

Assumptions are set at each year end and are generally not changed unless there is a major plan event such as a significant curtailment or settlement that would trigger a plan remeasurement.

The effects of actual results differing from our assumptions and the effects of changing assumptions are recognised in *Accumulated other comprehensive income/(loss)* on our statement of financial position.

See Note 21 for more information regarding pension costs and assumptions.

The 31 December 2022 pension defined benefit obligation and 2023 expense are affected by year-end 2022 assumptions. These sensitivities may be asymmetric and are specific to the time periods noted. The effects of changes in the factors which generally have the largest impact on year-end funded status and pension expense are discussed below.

Increase/(Decrease)			
Assumption	Percentage Point Change	Pension Surplus at 31 December 2022 £m	2023 Expense £m
Discount rate	+0.5 pt.	(489)	(45.8)
	- 0.5 pt.	567	45.6
Actual Return on assets during 2022	+0.5 pt.	(73)	(3.6)
	- 0.5 pt.	73	3.6
Rate of increase in salaries	+0.5 pt.	95	9.0
	- 0.5 pt.	(91)	(10.1)
Inflation	+0.5 pt.	354	25.7
	- 0.5 pt.	(334)	(25.6)

The foregoing indicates that changes in the discount rate and inflation can have a significant effect on the funded status of our pension plans, shareholders' funds and expense. We cannot predict these changes in discount rates or inflation and, therefore, cannot reasonably estimate whether adjustments to our shareholders' equity in subsequent years will be significant.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 3. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Useful Lives of Property, Plant and Equipment and Intangible Assets

Nature of Estimates Required. The estimation of the useful lives of items of property, plant and equipment and intangible assets is a matter of judgment based on the experience with similar assets. The future economic benefits embodied in the assets are consumed principally through use. However, other factors, such as technical or commercial obsolescence and wear and tear, often result in the diminution of the economic benefits embodied in the assets.

Assumptions and Approach Used. Management assesses the remaining useful lives in accordance with the current technical conditions of the assets and estimated period during which the assets are expected to earn benefits for the Company. The following primary factors are considered: (a) expected usage of the assets; (b) expected physical wear and tear, which depends on operational factors and maintenance programme; and (c) technical or commercial obsolescence arising from changes in market conditions.

NOTE 4. NEW STANDARDS AND INTERPRETATIONS

Adoption of New Accounting Standards

No new accounting standards, or amendments, were adopted during 2022.

Accounting Standards Issued But Not Yet Adopted

The following represent the standards and amendments that are applicable to Ford, none of which are expected to have a material impact to our financial statements or financial statement disclosures:

Insurance Contracts (effective January 1, 2023). The new standard addresses the differences in accounting treatment across jurisdictions and insurance products, which made it difficult for investors and analysts to understand and compare insurers' results. The majority of the change relates to long duration contracts.

The International Accounting Standards Board ("IASB") has also issued the following amendments, which are not expected to have a material impact to our financial statements or financial statement disclosures:

Amendments	Effective Date
Initial Application of IFRS 17 and IFRS 9 (Financial Instruments) – Comparative Information (Amendment to IFRS 17 and IFRS 9)	January 1, 2023
Classification of Liabilities as Current or Non-Current (Amendment to IAS 1)	January 1, 2023
Definition of Accounting Estimates (Amendment to IAS 8)	January 1, 2023
Disclosure Initiative – Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)	January 1, 2023
Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction (Amendment to IAS12)	January 1, 2023

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 5. REVENUE

Amounts included in *Revenue* on our income statement were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Sales of new vehicles, parts and accessories	£ 11,882	£ 9,084
Sales of vehicles previously leased under operating leases	103	184
Vehicle operating lease revenue	7	7
Other	37	28
Total revenue	£ 12,029	£ 9,303

Total Company *Revenue* split geographically for the years ended December 31 were as follows (in millions):

	For the years ended December 31,	
	2022	2021
United Kingdom	£ 5,691	£ 4,661
Germany	1,186	822
Spain	416	278
France	704	523
Italy	555	339
Other EU	1,849	1,433
Other Europe (non-EU as at 31 December)	1,032	878
Rest of World	596	369
Total revenue	£ 12,029	£ 9,303

Revenue is recognised when obligations under the terms of a contract with our customer are satisfied; generally this occurs with the transfer of control of our vehicles, parts, accessories, or services. Revenue is measured as the amount of consideration we expect to receive in exchange for transferring goods or providing services. The transaction price is allocated to each performance obligation based on the relative standalone selling price at contract inception for each performance obligation. Sales, value add, and other taxes we collect concurrent with revenue-producing activities are excluded from revenue. The expected costs associated with our base warranties and field service actions continue to be recognised as expense when the products are sold (see Note 25). We recognize revenue for vehicle service contracts that extend mechanical and maintenance coverages beyond our base warranties over the life of the contract. We do not have any material significant payment terms as payment is received at or shortly after the point of sale.

Depending on the terms of the arrangement, we may also defer the recognition of a portion of the consideration received because we have to satisfy a future obligation in relation to extended service contracts. We use an observable price to determine the stand-alone selling price for separate performance obligations or a cost plus margin approach when one is not available.

We sell vehicles to daily rental companies and guarantee that we will pay them the difference between an agreed amount and the value they are able to realise upon resale. At the time of transfer of vehicles to the daily rental companies, we record the probable amount we will pay under the guarantee to Other liabilities and deferred revenue

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 5. REVENUE (continued)

Vehicles, Parts, and Accessories. For the majority of vehicles, parts, and accessories, we transfer control and recognize a sale when we ship the product from our manufacturing facility to our customer (dealers and distributors). We receive cash equal to the invoice price for most vehicle sales at the time of wholesale. When the vehicle sale is financed by Ford Credit Europe, the dealer pays Ford Credit Europe when it sells the vehicle to the retail customer. Payment terms on part sales to dealers, distributors, and retailers range from 30 to 120 days. The amount of consideration we receive and revenue we recognize varies with changes in marketing incentives and returns we offer to our customers and their customers. When we give our dealers the right to return eligible parts and accessories, we estimate the expected returns based on an analysis of historical experience. We adjust our estimate of revenue at the earlier of when the most likely amount of consideration we expect to receive changes or when the consideration becomes fixed.

Used Vehicles. We sell used vehicles both at auction and/or through our dealers. Proceeds from the sale of these vehicles are recognised in revenues upon transfer of control of the vehicle to the customer and the related vehicle carrying value is recognized in Cost of sales.

Extended Service Contracts. We sell separately priced service contracts that extend mechanical and maintenance coverages beyond our base warranty agreements to vehicle owners. The separately priced service contracts range from 12 to 120 months. We receive payment at the inception of the contract and recognize revenue over the term of the agreement in proportion to the costs expected to be incurred in satisfying the obligations under the contract. At January 1, 2022, £41 million of unearned revenue associated with outstanding contracts was reported in Other Liabilities and deferred revenue, £15 million of this was recognized as revenue during the year ended December 31, 2022. At December 31, 2022, the unearned amount was £48 million. We expect to recognize approximately £17 million of the unearned amount in 2023, £12 million in 2024, and £19 million thereafter.

Other Revenue. Other revenue consists primarily of net commissions received for serving as the agent in facilitating the sale of a third party's products or services to our customers. We transfer control and recognize the net commission when the products are delivered to our customer (dealers and distributors).

Leasing Income. We sell vehicles to daily rental companies with an obligation to repurchase the vehicles for a guaranteed amount, exercisable at the option of the customer. The transactions are accounted for as operating leases. Upon the transfer of vehicles to the daily rental companies, we record proceeds received in Other liabilities and deferred revenue. The difference between the proceeds received and the guaranteed repurchase amount is recorded in revenues over the term of the lease using a straight-line method. The cost of the vehicle is recorded in Net investment in operating leases on our statement of financial position and the difference between the cost of the vehicle and the estimated auction value is depreciated in Cost of sales over the term of the lease.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 6. TOTAL COST OF SALES AND SELLING, ADMINISTRATIVE AND OTHER EXPENSES

Amounts included in *Cost of sales and Selling, administrative, and other expenses* on our income statement were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Manufacturing materials, labour and overhead	£ 1,085	£ 961
Purchase of new vehicles, parts and accessories	9,824	7,176
Depreciation and amortisation	103	110
Warranty	133	109
Advertising	102	111
Other	485	568
Total cost of sales and selling, administrative, and other expenses	£ 11,732	£ 9,035

NOTE 7. OTHER OPERATING INCOME

Amounts included in *Other operating income* on our income statement were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Government grants	£ -	£ 1
Total	£ -	£ 1

Government grants consist of UK Government support under the Furlough Scheme and financial support given to the manufacturing and sales sectors.

NOTE 8. PROFIT

Profit is arrived at after charging/(crediting) (in millions):

	For the years ended December 31,	
	2022	2021
Total depreciation on property, plant and equipment and investment property		
Land, land improvements, and buildings	£ 10	£ 13
Machinery, equipment and other	51	57
Special tooling	38	36
Loss/(profit) on disposal of property, plant and equipment	9	(33)
Inventory recognised as an expense	10,277	7,768
Operating lease rentals	-	1

Auditors' remuneration for the statutory audit of the Company's annual financial statements was £535,875 (2021: £532,500). Remuneration for provision of other services was split as follows; tax advisory was £nil (2021: £nil) and other non-audit related services was £31,500 (2021: £37,038).

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 9. NET FOREIGN CURRENCY EXCHANGE LOSSES

Net foreign currency exchange losses recognised on our income statement were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Cost of sales	£ 126	£ 130
Net foreign currency exchange losses	£ 126	£ 130

NOTE 10. INTEREST EXPENSE AND OTHER INTEREST INCOME AND FINANCE INCOME, NET

Amounts included in *Interest expense* and *Other interest income and finance income, net* on our income statement were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Interest expense - debt	£ 59	£ 30
Interest expense - group undertakings	4	3
Interest expense - other	5	1
	<u>68</u>	<u>34</u>
Interest income - group undertakings	10	3
Interest income - other	-	11
	<u>£ 10</u>	<u>£ 14</u>

NOTE 11. INCOME TAXES

The *Income tax expense/(benefit)* on our income statement was estimated as follows (in millions):

	For the years ended December 31,	
	2022	2021
Current		
<u>UK corporation tax</u>		
Current tax expense / (benefit) on profits for the year	£ -	£ -
Changes in estimates related to prior years	1	(2)
Restitution interest tax - accrual for reimbursement to affiliate	-	1
<u>Group relief</u>		
Current year benefit	(24)	(17)
Changes in estimates related to prior years	16	(8)
Total current tax expense benefit	<u>(7)</u>	<u>(26)</u>
Deferred		
Current year temporary differences	99	76
Changes in estimates related to prior years	(23)	8
Impact of rate change	-	(12)
Total deferred tax expense	<u>76</u>	<u>72</u>
Income tax expense / (benefit) reported in the income statement	<u>£ 69</u>	<u>£ 46</u>

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 11. INCOME TAXES (continued)

Tax expense for the year is higher (2021: lower) than the standard rate of corporation tax in the UK for the year ended 31 December 2022 of 19.00% (2021: 19.00%). The differences are explained below (in millions):

	2022	2021
Profit on ordinary activities before income taxes	£ 239	£ 249
Tax calculated at UK rate of corporation tax of 19.00% (2021: 19.00%)	45	47
Tax effects of:		
Expenses / income not taxable / (deductible) for tax purposes	6	(6)
Tax rate differential	24	18
Impact of rate change on deferred tax	-	(12)
Change in estimate related to prior years	17	(10)
Prior year adjustments to deferred tax	(23)	8
Restitution tax provision	-	1
Income tax expense / (benefit)	£ 69	£ 46
Effective tax rate	29.1%	18.4%

The deferred tax amounts shown on the statement of financial position at December 31 were as follows (in millions):

	2022	2021
Deferred tax assets	£ 158	£ 238
Deferred tax liabilities	(468)	(552)
Net deferred tax (liabilities) / assets	£ (310)	£ (314)

Deferred taxes by major category at December 31 were as follows (in millions):

	2022	2021
Deferred tax assets		
Decelerated capital allowances	£ 148	£ 185
Provisions	8	8
Revaluation of cash flow hedges	2	44
Capital losses	-	1
Total deferred tax assets	158	238
Deferred tax liabilities		
Retirement surplus	(446)	(534)
R&D expenditure credits	-	-
Plant, property and equipment	(4)	(4)
Chargeable gains rolled over	(18)	(14)
Total deferred tax liabilities	(468)	(552)
Net deferred tax (liabilities) / assets	£ (310)	£ (314)

There are unremitted earnings of £374.3m (2021: £293.3m) relating to the Company's direct subsidiaries. No deferred tax has been provided on this amount as distributions to the Company would be exempt from UK taxation. Disposals of the subsidiaries would also be exempt from UK taxation under the Substantial Shareholdings Exemption.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 11. INCOME TAXES (continued)

No deferred tax asset has been recognised for connected party capital losses of £170.2m (2021: £170.2m) on the basis that it is not probable that these will be utilised in the future.

At December 31, 2022, Ford Motor Company Limited had pre-tax operating loss carry-forwards for income tax purposes in the amount of £nil (2021: £nil).

The current and non-current portions of deferred income taxes expected to be recovered or settled within and after one year at December 31 were as follows (in millions):

	2022	2021
Deferred tax assets		
Current portion	£ 39	£ 25
Non-current portion	119	213
Total deferred tax assets	158	238
Deferred tax liabilities		
Current portion	38	-
Non-current portion	(506)	(552)
Total deferred tax liabilities	(468)	(552)
Net deferred tax (liabilities) / assets	£ (310)	£ (314)

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same tax authority.

On 10th June 2021, Finance Act 2021 was enacted. This provided for an increase in the main rate of corporation tax in the UK from 19% to 25% from 1st April 2023 for UK tax resident companies whose profits exceed a certain threshold. The company's net deferred tax liability is valued at the new rate of 25%. Had the new rate been applied to corporation tax/group relief for the period, the group relief credit would have increased by £5.7m.

NOTE 12. TRADE AND OTHER RECEIVABLES

Trade and other receivables are analysed as follows (in millions):

	As at December 31,	
	2022	2021
Amounts falling due within one year		
Trade receivables	£ 81	£ 53
Amounts owed by group undertakings	3,011	2,321
Amounts owed by associated undertakings	26	2
Other receivables	53	61
Prepayments and accrued income	42	38
	3,213	2,475
Amounts falling due after more than one year		
Other receivables	5	1
	5	1
Total	£ 3,218	£ 2,476

Amounts owed by group undertakings are unsecured and are repayable on demand.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 13. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

Income Effect of Derivative Financial Instruments

The (losses)/gains, by hedge designation, recorded in *Cost of sales* were as follows (in millions):

	As at December 31,	
	2022	2021
Cash flow hedges		
Reclassified from AOCI to income	£ (130)	£ (110)
Derivatives not designated as hedging instruments		
Foreign currency exchange contracts	84	43
Total	£ (46)	£ (67)

Statement of Financial Position Effect of Derivative Financial Instruments

The notional amount and estimated fair value of our derivative financial instruments were as follows (in millions).

	December 31, 2022			December 31, 2021		
	Notional	Fair Value of Assets	Fair Value of Liabilities	Notional	Fair Value of Assets	Fair Value of Liabilities
Cash flow hedges						
Foreign currency exchange	£ 803	£ 12	£ (9)	£ 2,378	£ -	£ (150)
Derivatives not designated as hedging instruments						
Foreign currency exchange contracts	(2,361)	11	(91)	(1,616)	29	(70)
Total derivative value, gross	£ (1,558)	23	(100)	£ 762	29	(220)
Current portion		£ 19	£ (100)		£ 29	£ (156)
Non-current portion		4	-		-	(64)
Total		£ 23	£ (100)		£ 29	£ (220)

Notional amounts are presented on a gross basis. The notional amounts of the derivative financial instruments do not represent amounts exchanged by the parties and, therefore, are not a direct measure of our exposure to the financial risks described above. We enter into master agreements with counterparties that may allow for netting of exposures in the event of default or termination of the counterparty agreement due to breach of contract.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 14. INVENTORIES

Inventories on our statement of financial position were as follows (in millions):

	As at December 31,	
	2022	2021
Raw materials and supplies	£ 137	£ 90
Work-in-process	173	124
Finished products and vehicles previously subject to operating lease	560	263
Total	£ 870	£ 477

The write-down of *Inventories* to net realisable value as an expense was £0.1 million and £0.2 million for the years ended December 31, 2022 and 2021, respectively.

Included in raw materials and supplies and finished products is £156.0 million (2021: £88.5 million) relating to assets which the Company is committed to buy-back although legal title has passed to a third party.

NOTE 15. NET INVESTMENT IN OPERATING LEASES

Net investment in operating leases consists primarily of lease contracts for vehicles with employees, daily rental companies and fleet customers, with terms of 6-12 months or less. Payment extensions may be requested by the customer and are generally limited to a maximum of six months over the term of the lease. Term extensions may also be requested by the customer. Term and payment extensions in total generally do not exceed twelve months. A lease can be terminated at any time by satisfying the obligations under the lease agreement. Early termination programs may be occasionally offered to eligible lessees. At the end of the lease, the customer returns the vehicle or may have the option to buy the leased vehicle. In the case of a contract default and repossession, the customer typically remains liable for any deficiency between net auction proceeds and the defaulted contract obligations, including any repossession-related expenses.

Revenue from rental payments received on operating leases is recognized on a straight-line basis over the term of the lease. The accrual of revenue on operating leases is discontinued at the time an account is determined to be uncollectible.

Depreciation expense on vehicles subject to operating leases is recognized on a straight-line basis in an amount necessary to reduce the leased vehicle value to its estimated residual value at the end of the lease term. Our policy is to promptly sell returned off-lease vehicles. We evaluate our depreciation for leased vehicles on a regular basis taking into consideration various assumptions, such as expected residual values at lease termination and the estimated number of vehicles that will be returned to us. Adjustments to depreciation expense reflecting revised estimates of expected residual values at the end of the lease terms are recorded prospectively on a straight-line basis. Upon disposition of the vehicle, the difference between net book value and actual proceeds is recorded as an adjustment to Depreciation on vehicles subject to operating leases.

Accumulated depreciation reduces the value of the vehicles from their initial production value to their expected residual value at the end of the lease, with the associated depreciation expense recognized on a straight-line basis over the term of the lease. At the time of purchase, we establish the expected residual value for the vehicle based on recent auction values, return volumes for our leased vehicles, industry-wide used vehicle prices, marketing incentive plans, and vehicle quality data. We monitor residual values each month and review the accuracy of our accumulated depreciation on a quarterly basis.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 15. NET INVESTMENT IN OPERATING LEASES (continued)

Net investment in operating leases at December 31 was as follows (in millions):

	2022	2021
Vehicles	£ 106	£ 84

Operating leases are generally pre-payable without penalty and may cause actual paid amounts due to differ from amounts contractually due.

NOTE 16. INTANGIBLE ASSETS

Changes in *Intangible assets* balances on our statement of financial position were as follows (in millions):

	<u>For the year ended December 31, 2022</u>		
	Quotas	Software	Total

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 17. PROPERTY, PLANT AND EQUIPMENT

Changes in *property, plant and equipment* balances on our statement of financial position were as follows (in millions):

	For the year ended December 31, 2022				
	Land, Land Improvements, and Buildings	Machinery, Equipment, and Other	Special Tooling	Construction in Progress	Total
Cost					
Beginning balance 1 January 2022	£ 341	£ 843	£ 357	£ 10	£ 1,551
Additions	24	46	33	9	112
Transfers in from group undertakings	1	1	1	-	3
Transfers out to group undertakings	(12)	(12)	-	-	(24)
Disposals	(17)	(44)	(37)	-	(98)
Ending balance 31 December 2022	337	834	354	19	1,544
Accumulated depreciation					
Beginning balance 1 January 2022	(156)	(516)	(222)	-	(894)
Depreciation	(10)	(51)	(38)	-	(99)
Transfers in from group undertakings	-	-	(1)	-	(1)
Transfers out to group undertakings	12	9	-	-	21
Disposals	12	40	37	-	89
Ending balance 31 December 2022	(142)	(518)	(224)	-	(884)
Net Book Value 31 December 2022	£ 195	£ 316	£ 130	£ 19	£ 660
Net Book Value 31 December 2021	£ 185	£ 327	£ 135	£ 10	£ 657

The net book value of land, land improvements and buildings comprises freehold £167m (2021: £169m). £41m (2021: £41m) relates to land which is not depreciated.

The net book value of land, land improvements and buildings includes £28m (2021: £16m) for right of use assets.

The net book value of machinery, equipment and other includes £35m (2021: £11m) for right of use assets.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 18. LEASE COMMITMENTS

We lease land, offices, distribution centres and equipment under agreements with contractual periods ranging from less than one year to 10 years. Many of our leases contain one or more options to extend. We include options that we are reasonably certain to exercise in our evaluation of the lease term after considering all relevant economic and financial factors. These are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. The majority of extension and termination options held are exercisable only by the Company and not by the respective lessor.

For the majority of our leases commencing after January 1, 2019, we do not separate the non-lease components (e.g., maintenance and operating services) from the lease components to which they relate. Instead, non-lease components are included in the measurement of the lease liabilities.

The Company is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

We calculate the initial lease liability as the present value of fixed payments not yet paid and variable payments that are based on a market rate or an index (e.g CPI), measured at commencement. The majority of our leases are discounted using our incremental borrowing rate because the rate implicit in the lease is not readily determinable. All other variable payments are expensed as incurred.

Lease right-of-use assets at December 31 2022 were as follows (in millions):

For the year ended December 31, 2022			
	Land, Land Improvements, and Buildings	Machinery, Equipment, and Other	Total
Cost			
As at 1 January 2022	£ 27	£ 28	£ 55
Additions	20	36	56
Disposals	(13)	(14)	(27)
As at 31 December 2022	34	50	84
Accumulated depreciation			
As at 1 January 2022	(11)	(17)	(28)
Additions	(4)	(12)	(16)
Disposals	9	14	23
As at 31 December 2022	(6)	(15)	(21)
Net carrying amount	£ 28	£ 35	£ 63

The components of lease expense were as follows (in millions):

	2022	2021
Depreciation		
Land and buildings	£ 4	£ 4
Machinery, equipment, and other	12	10
Total depreciation	16	14
Other Expenses

for the year ended 31 December 2022

NOTE 19. INVESTMENT PROPERTY

Changes in *Investment Property* balances on our statement of financial position were as follows (in millions):

	Land, Land Improvement , and Buildings
Cost	
Beginning balance 1 January 2022	£ 31
Disposals	-
Ending balance 31 December 2022	<u>31</u>
Accumulated depreciation	
Beginning balance 1 January 2022	(14)
Depreciation	(1)
Ending balance 31 December 2022	<u>(15)</u>
Net Book Value 31 December 2022	<u>£ 16</u>
Net Book Value 31 December 2021	<u>£ 17</u>

Included within freehold investment property above is £9.2m (2021: £9.2m) relating to land which is not depreciated.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 20. INVESTMENT IN SUBSIDIARIES AND ASSOCIATES

Investment in subsidiaries and associates on our statement of financial position was as follows (in millions):

	For the year ended December 31, 2022		
	Group undertakings shares	Associated undertakings	Total
Cost			
1 January 2022	£ 438	£ 11	£ 449
Additions	429	-	429
31 December 2022	867	11	878
Provisions			
1 January and 31 December 2022	-	(2)	(2)
Net Book Value 31 December 2022	£ 867	£ 9	£ 876
Net Book Value 31 December 2021	£ 438	£ 9	£ 447

Additions represent a capital contribution of £429m to Ford International Liquidity Management Limited.

The directors are satisfied the recoverable amount of investments exceeds their carrying amount and therefore all investments are fully recoverable. The subsidiaries have sufficient net assets to support their net book value and there are no known impairment indicators.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 21. PENSION

The pension arrangements provide employees with defined benefits related to pay and service as set out in the rules of each fund. The main funds are the "Hourly Paid Contributory Pension Fund", the "Salaried Contributory Pension Fund", the "Pension Scheme for Senior Staff" and the "Existing" and "Retail" sections of the Cosworth Racing Limited Pension Fund. These are all consolidated and disclosed together as the "Funded Plans". There is an additional plan called the "Company unapproved arrangement (UURBs)" which is unfunded and disclosed separately as the "Unfunded Plans".

Contributions to the funds by the Company take into consideration the results of actuarial valuations carried out by the independent scheme actuary. The assets of the funds are invested and are held separately from those of the Company.

The valuation used for FRS 101 disclosures has been based on a full assessment of the liabilities of the funds by an independent qualified actuary using the latest full membership data at the following effective dates:

- Hourly Paid Fund: 31 March 2022
- Salaried Fund: 31 March 2022
- Senior Staff Scheme: 31 March 2022
- UURBs arrangement: consistent with the data used for the Fund in which they joined from (i.e. 31 March 2022 for Salaried members and 31 March 2022 for Senior Staff members)
- Cosworth Racing Limited Pension Fund: 31 March 2021

The funds show a net surplus before deferred tax of (in millions):

	As at December 31,	
	2022	2021
Funded Plans	£ 2,013	£ 2,550
Unfunded Plans	(168)	(246)
Net Pension Surplus	£ 1,845	£ 2,304

The Company intends to ensure its pension schemes are adequately funded over time.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 21. PENSION (continued)**Assumptions**

The assumptions used to determine expense and benefit obligations were as follows:

	For the years ended December 31,	
	2022	2021
Rate of increase in salaries	3.65%	3.65%
Rate of increase to pensions in payment attracting LPI (max.5%)	2.55%	2.60%
Inflation assumption (see below) CPI	2.65%	2.65%
Inflation assumption (see below) RPI	3.15%	3.15%
<u>Discount Rate</u>		
- Hourly paid	4.8%	1.8%
- Salaried	4.8%	1.8%
- Senior Staff	4.8%	1.8%
- Cosworth	4.8%	1.8%
- Retail	4.8%	1.8%
Expected average age at death for a member aged 65	85.9	85.8
Expected average age at death for a member aged 45	87.0	86.8

At 31 December 2022, there were 4,817 current employee members, 38,181 retirees and 14,303 deferred members. The weighted average duration of these obligations is 13 years.

In addition to guaranteed increases, pension in payment increases are made at the Company's discretion. The cost of any future discretionary increases will be recognised at the time of the increase and the cost of funding these increases is borne wholly by the Company.

Pension Plan Contributions

The contributions agreed and paid in 2022, and those forecast to be paid in 2023 by the Company are as follows:

	Hourly Paid Fund	Salaried Fund	Senior Staff Scheme	Cosworth Section	Retail Section	Unfunded Unregistered Retirement Benefit Scheme
1 Jan 2022 – 31 Dec 2022	Total contributions of approx £65.2m	Total contributions of approx £111.0m	Total contributions of approx £1.1m	Total contributions of £2.7m	Total contributions of £1.9m	Total benefit payments of approx £3.8m
1 Jan 2023 – 31 Dec 2023	Total contributions of approx £71.4m	Total contributions of approx £117.5m	Total contributions of approx £0.8m	Total contributions of £3.6m	Total contributions of £2.5m	Total benefit payments of approx £3.6m

Contributions related to benefit augmentations would be in addition to the above amounts.

A number of Ford Credit Europe plc ("FCE") employees who are based in the United Kingdom participate in the Salaried Contributory Pension Fund and the Pension Scheme for Senior Staff. As there is no contractual agreement or stated policy for charging the net defined benefit cost for the plan to FCE, the contributions received from FCE are recognised as a pension cost credit within operating profit and all of the assets and liabilities of the funds are recognised by the Company.

Amounts received from FCE amounted to £11.8m (2021: £9.9m) for regular pension contributions.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 21. PENSION (continued)**Funded Plans****Benefit Plans - Expense and Status**

The net expense for our defined benefit pension for the years ended December 31, were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Expense		
Current service cost	£ 162	£ 186
Interest (income), net	(42)	(16)
Past service cost	11	8
Curtailment / Settlement cost	-	-
Net expense	£ 131	£ 178

Investment management expenses of £19m (2021: £20m) have been paid directly by the Company and have been recognised in *other comprehensive income* as remeasurement of the liability for the net defined post-employment benefit.

The year-end status of these plans was as follows (in millions):

	2022	2021
Change in benefit obligation		
Benefit obligation at January 1	£ 12,414	£ 13,498
Current service cost	162	186
Interest expense	210	173
Past service cost (including separations)	11	8
Benefits paid	(489)	(566)
(Gain)/loss from remeasurement	(4,133)	(882)
Curtailment / Settlement Cost	-	-
Plan participant contributions (including NIARRs)	3	3
Other (UURBS transfer)	(11)	(6)
Benefit obligation at December 31	8,167	12,414
Change in plan assets		
Fair value of plan assets at January 1	14,974	14,874
Interest income	252	189
(Loss)/gain from remeasurement	(4,736)	321
Company contributions	182	153
Plan participant contributions (including NIARRs)	3	3
Benefits paid	(489)	(566)
Fair value of plan assets at December 31	10,186	14,974
Total	£ 2,019	£ 2,560

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 21. PENSION (continued)

Reconciliation of funded status to Statement of Financial Position (in millions):

	As at December 31,	
	2022	2021
Fair value of fund assets	£ 10,186	£ 14,974
Present value of defined benefit obligations	8,167	12,414
Surplus	2,019	2,560
Surplus not recognised	(6)	(10)
Net pension asset	£ 2,013	£ 2,550

The Cosworth Pension Fund has a surplus that is not recognised, on the basis that future economic benefits are not available to the entity in the form of a reduction in the future contributions or a cash refund. In accordance with the requirements of IFRIC 14, we have recognised a minimum funding commitment associated with that plan.

The return on the plan assets was (in millions):

	For the years ended December 31,	
	2022	2021
Interest income	£ 252	£ 189
Remeasurements	(4,736)	321
Total return on plan assets	£ (4,484)	£ 510

Analysis of amounts recognised in the Statement of Comprehensive Income (in millions):

	For the years ended December 31,	
	2022	2021
Total actuarial (loss)/gain	£ (602)	£ 1,203
Deficit/(surplus) not recognised	4	(2)
Total (loss)/gain in Statement of Comprehensive Income	£ (598)	£ 1,201

Pension Plan Assets

The fair value of our defined benefit pension plan assets by asset category at December 31 was as follows (in millions):

Asset Category	December 31, 2022			December 31, 2021		
	Quoted	Not Quoted	Total	Quoted	Not Quoted	Total

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 21. PENSION (continued)**Unfunded Plans****Benefit Plans - Expense and Status**

The net expense for our defined benefit pension for the years ended December 31, were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Expense		
Current service cost	£ 11	£ 13
Interest expense, net	4	4
Past service cost	1	2
Curtailment/Settlement cost	-	-
Net expense	£ 16	£ 19

The year-end status of these plans was as follows (in millions):

	2022	2021
Change in benefit obligation		
Benefit obligation at January 1	£ 246	£ 249
Current service cost	11	13
Interest expense	4	4
(Gain) from remeasurement	(100)	(25)
Past service cost (including separations)	1	2
Benefits paid	(4)	(3)
Curtailment/Settlement cost	-	-
Other (UURBS transfer)	10	6
Benefit obligation at December 31	168	246
Change in plan assets		
Fair value of plan assets at January 1	-	-
Company contributions	4	3
Benefits paid	(4)	(3)
Fair value of plan assets at December 31	-	-
Net Pension Liability	£ (168)	£ (246)

Analysis of amounts recognised in the Statement of Comprehensive Income (in millions):

	For the years ended December 31,	
	2022	2021
Total actuarial gain	£ 100	£ 25
Total gain in Statement of Comprehensive Income	£ 100	£ 25

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 22. ACCOUNTS PAYABLE

Accounts payable is analysed as follows (in millions):

	As at December 31,	
	2022	2021
Trade payables	£ 504	£ 343
Amounts owed to group undertakings	729	563
Amounts owed to associated undertakings	475	406
Corporation tax	-	1
Taxation and social security	30	23
Total	£ 1,738	£ 1,336

Amounts owed to group and associated undertakings are unsecured and are repayable on demand.

NOTE 23. DEBT

Debt on our statement of financial position was as follows (in millions):

	As at December 31,	
	2022	2021
Due greater than one year but less than five years:		
Bank Loans	£ 1,301	£ 567
Total	£ 1,301	£ 567
Current portion		
Non-current portion	1,301	567
Total	£ 1,301	£ 567

Bank loans relate to the amount drawn under a £1,375m (2021: £625m) loan facility from a syndicate of commercial banks with support from a £1,100m (2021: £500m) guarantee from UK Export Finance (UKEF).

Bank loans are unsecured and fully repayable on 30 June 2025 (£625m) and 30 June 2027 (£750m). The Company incurred transaction costs of £9.1m in 2020 and £8.3m in 2022 in obtaining the loans which are amortised over the life of the loans. The unamortised transaction costs as at 31 December 2022 are £12.7m (2021: £7.2m).

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 24. DEFERRED REVENUE AND OTHER LIABILITIES

Deferred revenue and other liabilities are analysed as follows (in millions):

	As at December 31,	
	2022	2021
Amounts falling due within one year		
Finance leases	£ 11	£ 9
Other creditors	1	-
Accruals and deferred income	195	170
	<u>207</u>	<u>179</u>
Amounts falling due after more than one year		
Finance leases	32	19
Other creditors	-	-
Accruals and deferred income	96	86
	<u>128</u>	<u>105</u>
Total	<u>£ 335</u>	<u>£ 284</u>

The amounts contractually due on our lease liabilities as of December 31 were as follows (in millions):

	2022	2021
Within 1 year	£ 11	£ 9
After 1 year and within 2 years	7	7
After 2 years and within 3 years	4	4
After 3 years and within 4 years	3	2
After 4 years and within 5 years	3	1
After 5 years	15	5
Total	<u>£ 43</u>	<u>£ 28</u>

NOTE 25. PROVISIONS

Provisions on our statement of financial position were as follows (in millions):

	As at December 31,	
	2022	2021
Warranties	£ 199	£ 193
Dealer and customer claims	650	420
Other	26	16
Total	<u>£ 875</u>	<u>£ 629</u>
Current portion	788	545
Non-current portion	87	84
Total	<u>£ 875</u>	<u>£ 629</u>

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 25. PROVISIONS (continued)

Warranties

We accrue obligations for warranty costs and field service actions (i.e., safety recalls, emission recalls, and other product campaigns) at the time of sale. We establish estimates for warranty and field service action obligations using a patterned estimation model using historical information regarding the nature, frequency, and average cost of claims for each vehicle line by model year. We re-evaluate the adequacy of our accruals on a regular basis and any revisions to our estimated obligation for warranties and field service actions are reported as *Changes in accrual related to pre-existing warranties* in the table below.

The changes in provisions for warranties were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Beginning balance	£ 193	£ 230
Provisions made	153	147
Changes related to pre-existing provisions	(20)	(38)
Payments made	(121)	(145)
Unrealised profit adjustment	(6)	(1)
Ending balance	£ 199	£ 193
Current portion	113	110
Non-current portion	86	83
Total	£ 199	£ 193

Dealer and Customer Claims

We accrue for dealer and customer claims related to incentive programs that are approved as of the reporting date and are expected to be effective at the beginning of the subsequent period.

The changes in provisions for dealer and customer claims were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Beginning balance	£ 420	£ 468
Provisions made	1,432	1,322
Payments made	(1,202)	(1,370)
Ending balance	£ 650	£ 420
Current portion	650	420
Non-current portion	-	-
Total	£ 650	£ 420

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 25. PROVISIONS (continued)

Other

Other provisions are associated with legal and restructuring actions, employee benefits and other items.

Legal actions. Various legal actions, proceedings, and claims (generally, "matters") are pending or may be instituted or asserted against us.

The extent of our financial exposure to these matters is difficult to estimate. Many matters do not specify amount for damages, and many others specify only a jurisdictional minimum. To the extent an amount is asserted, our historical experience suggests that in most instances the amount asserted is not a reliable indicator of the ultimate outcome.

Litigation and claims are accrued when losses are deemed probable and reasonably estimable. In evaluating matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood of our prevailing, and the severity of any potential loss. We re-evaluate and update our provisions accruals as matters progress over time.

As noted, the litigation process is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Our assessments are based on our knowledge and experience, but the ultimate outcome of any matter could require payment in excess of the amount that we have accrued and/or disclosed.

The changes in other provisions were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Beginning balance	£ 16	£ 76
Additional provisions, including changes related to pre-existing provisions	18	9
Payments made	(8)	(69)
Ending balance	£ 26	£ 16
Current portion	25	15
Non-current portion	1	1
Total	£ 26	£ 16

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 26. OTHER FINANCIAL LIABILITIES

Other financial liabilities on the statement of financial position consist of our guarantees and indemnifications.

Guarantees and indemnifications are recorded at fair value at their inception. We regularly review our performance risk under these arrangements, and in the event it becomes probable we will be required to perform under guarantee or indemnity, the amount of probable payment is recorded.

We guarantee certain financial obligations of outside third parties, including suppliers, to support our business and economic growth. Expiration dates vary through 2027, and guarantees will terminate on payment and/or cancellation of the underlying obligation. A payment by us would be triggered by failure of the joint venture or other third party to fulfil its obligation covered by the guarantee. In some circumstances, we are entitled to recover from a third party amounts paid by us under the guarantee. However, our ability to enforce these rights is sometimes delayed until the guaranteed party is paid in full, and may be limited in the event of insolvency of the third party or other circumstances.

In the ordinary course of business, we execute contracts involving indemnifications standard in the industry and indemnifications specific to a transaction, such as the sale of a business. These indemnifications might include and are not limited to claims relating to any of the following: environmental, tax, and shareholder matters; intellectual property rights; power generations contracts; government regulations and employment-related matters; dealer, supplier, and other commercial contractual relationships; and other financial matters, such as securitisations.

Performance under these indemnities generally would be triggered by a breach of terms of the contract or by a third-party claim. While some of these indemnifications are limited in nature, many of them do not limit potential payment. Therefore, we are unable to estimate a maximum amount of future payments that could result from claims made under these unlimited indemnities.

The carrying value of recorded liabilities related to guarantees and indemnifications were £nil and £nil at December 31, 2022 and December 31, 2021, respectively.

NOTE 27. CALLED UP SHARE CAPITAL

The number of ordinary shares outstanding at December 31 were as follows (in millions):

	As at December 31,	
	2022	2021
Authorised, allotted and fully paid		
983,118,713 (2021: 983,118,713) ordinary shares of £0.86 (2021: £0.86 each)	£ 848	£ 848

All shares rank pari passu in all respects.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 28. ACCUMULATED OTHER COMPREHENSIVE LOSS

The changes in the accumulated balances for each component of *Accumulated other comprehensive loss* attributable to Ford Motor Company Limited were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Derivative instruments		
Beginning balance	£ (144)	£ (22)
Gains/(losses) on derivative instruments	45	(275)
Less: Tax (expense)/benefit	(11)	72
Net gain/(loss) on derivative instruments	34	(203)
Gains reclassified from AOCI to income	130	110
Less: Tax expense	(33)	(29)
Net gains reclassified from AOCI to net income	97	81
Other comprehensive gain/(loss), net of tax	131	(122)
Ending balance	£ (13)	£ (144)
Pension		
Beginning balance	£ -	£ -
(Losses)/gains arising during the year	(517)	1,206
Less: Tax benefit/(expense)	122	(313)
Other comprehensive (loss)/income, net of tax	(395)	893
Reclassification to retained earnings, net of tax	395	(893)
Ending balance	£ -	£ -
Total AOCI ending balance at December 31	£ (13)	£ (144)

NOTE 29. CONTINGENT LIABILITIES

The following table summarises the contingent liabilities which are not recorded on the statement of financial position (in millions):

	As at December 31,	
	2022	2021
Contingent liabilities	£ 12	£ 21

Litigation and Claims

Various legal actions, proceedings, and claims (generally, "matters") are pending or may be instituted or asserted against us. These include but are not limited to matters arising out of alleged defects in our products; product warranties; governmental regulations relating to safety, emissions, and fuel economy or other matters; government incentives; tax matters; alleged illegal acts resulting in fines or penalties; financial services; employment-related matters; dealer, supplier, and other contractual relationships; intellectual property rights; environmental matters; shareholder or investor matters; and other financial reporting matters. Certain of the pending legal actions are, or purport to be, class actions. Some of the matters involve claims of compensatory, punitive, or antitrust, or other treble damages in very large amounts, or demands for field service actions, environmental remediation programs, sanctions, loss of government incentives, assessments, or other relief, which, if granted, would require very large expenditures.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 29. CONTINGENT LIABILITIES (continued)

We accrue for matters when losses are deemed probable and reasonably estimable. In evaluation matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood that we will prevail, and the severity of any potential loss. We reevaluate and update our accruals as matters of progress over time.

For the majority of matters, which generally arise out of alleged defects in our products, we establish an accrual based on our extensive historical experience in such matters. We do not believe there is a reasonably possible outcome materially in excess of our accrual for these matters.

For the remaining matters, where our historical experience with similar matters is of more limited value (i.e., "non-pattern matters"), we evaluate the matter primarily based on the individual facts and circumstances. For non-pattern matters, we evaluate whether there is a reasonable possibility of a material loss in excess of any accrual that can be estimated. Our estimate of reasonably possible loss in excess of our accruals for all material matters currently reflects indirect tax and customs matters, for which we estimate the aggregate risk to be a range of up to £12.4m (2021: £21.4m).

NOTE 30. CAPITAL AND OTHER COMMITMENTS

At 31 December, the Company had the following capital and other commitments (in millions):

	As at December 31,	
	2022	2021
Aggregate of capital contracts approved but not provided for:	£ 172	£ 137
Other purchase commitments	178	184
Total	£ 350	£ 321

NOTE 31. EMPLOYEES AND DIRECTORS

Employment costs were as follows (in millions):

	For the years ended December 31,	
	2022	2021
Employment costs		
Wages and salaries	£ 614	£ 560
Social security costs	86	78
Other pension costs	129	176
Total	£ 829	£ 814

Included above are £213m (2021: £214m) of employment costs that were recharged to the immediate holding company, Ford Technologies Limited for seconded employees.

Included above are £3m (2021: £4m) of employment costs that were recharged to Ford Smart Mobility U.K.Limited for seconded employees.

Included above are £19m (2021: £17m) of employment costs that were recharged to the immediate subsidiary company, Ford Halewood Transmissions Limited for seconded employees.

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 31. EMPLOYEES AND DIRECTORS (continued)

The average monthly number of persons employed in the Company by geographical location was as follows:

	For the years ended December 31,	
	2022 Employees	2021 Employees
Location of employment		
South East	5,552	5,439
South Wales	12	46
Midlands	324	330
Total United Kingdom	5,888	5,815
Overseas	30	29
Total	5,918	5,844

Aggregate emoluments of the directors amounted to £1.0m (2021: £1.7m). As at 31 December 2022 retirement benefits are accruing under a defined benefit pension scheme to three directors (2021: five directors) and under a defined contribution pension scheme two directors (2021: no directors). During the year no directors (2021: no directors) exercised share options in the ultimate holding Company and nine directors (2021: eight directors) were eligible to receive shares in the ultimate holding Company under an annual incentive programme.

The highest paid director's emoluments were £0.3m (2021: £0.4m). The highest paid director did not exercise share options during the year. The highest paid director had an accrued annual pension at the end of the year of £0.1m (2021: £0.1m) and an accrued lump sum of £nil (2021: £nil) under a defined benefit pension scheme.

The Company guaranteed directors' loans from a group undertaking of £0.3m (2021: £0.5m) in respect of cars purchased from the Company during the year, the maximum loan liability at any date being £0.2m (2021: £0.3m). Neither the Company nor the group undertaking incurred any liability through fulfilment of these guarantees. The outstanding loan balances and associated accrued interest at the end of the year was £0.2m (2021: £0.2m).

NOTE 32. SHARE-BASED PAYMENTS

The Company's ultimate holding Company issues restricted stock units ("RSUs") to our employees, which consist of time-based and performance-based awards. RSUs provide the recipients with the right to shares of our ultimate holding Company's Share Capital following a specified performance period and/or vesting period. Time-based awards generally have a vesting feature whereby one-third of each grant of RSUs vests after the first anniversary of the grant date, one-third after the second anniversary, and one-third after the third anniversary. Performance-based RSUs vest at the end of the specified performance period, generally three years, assuming required metrics are met. Performance-based RSUs have two components: one based on the ultimate holding Company's internal financial performance metrics, and the other based on ultimate holding Company's total shareholder return relative to total shareholder returns of an industrial and automotive peer group. The ultimate holding Company issue new shares of Share Capital upon vesting of RSUs. At the time of vest, RSU awards are net settled (shares are withheld to cover the employee tax obligation).

Ford Motor Company Limited
Annual Report and Financial Statements
for the year ended 31 December 2022

NOTE 32: SHARE-BASED PAYMENTS (continued)

The fair value of both the time-based and the portion of the performance-based RSUs pertaining to internal performance metrics is determined using the closing price of our ultimate holding Company's Share Capital. The fair value of time-based RSUs is expensed over the shorter of the vesting period, using the graded vesting method, or the time period an employee becomes eligible to retain the award at retirement. The fair value of performance-based RSUs is expensed when it is probable and estimable as measured against the performance metrics over the shorter of the performance or required service periods. Expense is recorded in *Selling, administrative, and other expenses*.

Share-based compensation awards outstanding at December 31, 2022 consist of awards granted to employees under the 2008 Long-Term Incentive Plans ("LTIP"). Under the 2008 LTIP, the number of shares that may be granted in any year is limited to 2% of our ultimate holding Company's issued and outstanding Share Capital as of December 31 of the prior calendar year. Any unused portion is available for awards in later years. The limit may be increased up to 3% in any year, with a corresponding reduction in shares available for grants in future years.

The performance-based RSUs granted in March 2022 include a Relative Total Shareholder Return ("TSR") metric. We estimate the fair value of the TSR component of the performance-based RSUs using a Monte Carlo simulation. Inputs and assumptions used to calculate the fair value at grant date were as follows:

	For the year ended December 31, 2022	For the year ended December 31, 2021
Fair value per stock award	\$ 7.21	\$ 13.45
Grant date stock price	7.08	11.93
Assumptions:		
Ultimate holding Company stock price expected volatility (a)	25.4%	39.9%
Expected average volatility of peer companies (a)	26.4%	39.6%
Risk-free interest rate	0.68%	0.32%

(a) Expected volatility based on three years of daily closing share price changes ending on the grant date.

During 2022 the number and weighted average grant date fair market price of the share awards are as follows:

	For the years ended December 31, 2022	2021
Number of shares	411,628	634,787
Average fair market price of shares (US\$)	\$ 16.82	\$ 12.02

Stock Options

During 2022, no stock options in our ultimate holding Company were issued to our employees. As of December 31, 2022, the last of our outstanding stock options in our ultimate holding Company will expire in March 2024, if not exercised sooner. We measure the fair value of our stock options in our ultimate holding Company using the Black-Scholes option-pricing model and record expense in *Selling, administrative, and other expenses*.

Out of the 147,324 outstanding options (2021: 167,850 options), 147,324 options (2021: 167,850) were exercisable. Options exercised in 2022 resulted in 20,526 shares (2021: 138,194 shares) being issued at a weighted average price of \$12.60 each (2021: £12.97). The related weighted average share price at the time of exercise was \$18.48 (2021: \$17.14) per share.

Ford Motor Company Limited
